There is presented again the matter of acquisition of property on Route 45 (1953), Section 1, New Jersey Turnpike to Route U. S. 130, Parcel 16, Regina Kossman, widow and Paul Kossman, singleman. Condemnation proceedings were previously authorized by the Commissioner on May 16, 1966, and the reviewer's fair market value determination of $20,300 was subsequently deposited in the Superior Court. Later, it was disclosed that the large Acme sign located within the taking area and to which a value of $15,000 had been attributed was, in fact, owned by the tenant and not the property owner. The new fair market value determination was in the sum of $10,150 of which the sum of $4,850 represented compensation to the fee owner for the sign's foundation and electrical hook up. By commission action dated February 5, 1968 the Commissioner approved the withdrawal of $10,150 leaving the balance of $10,150 on deposit in the Superior Court. The withdrawal was never accomplished, and the balance remaining in the Superior Court is therefore the sum of $20,300.

At the condemnation commissioners hearing testimony by the owner was in the sum of $25,000 as his cost to purchase replacement property. The testimony by the State was in the sum of $5,300 for the taking, and no testimony was introduced by the State concerning the value of a large Acme sign, its ownership and its removal. This sign had been removed and retained by the Acme Co. as the tenant.

The trial attorney recommends acceptance of the condemnation commissioners award in the sum of $13,226.14 due to the dispute respecting the Acme sign and a question of drainage which the owner cited in his testimony.

Authority is further requested to withdraw the balance from the $20,300 on deposit after the settlement of this award has been accomplished. (October 9, 1968)

Condemnation proceedings were authorized for the acquisition of this parcel on September 27, 1966 and the sum of $50 was deposited with the Court on September 25, 1967. Subsequently, a new appraisal was ordered which resulted in the fair market value being re-registered in the amount of $150. This amount was offered to and accepted by the owner which resulted in an agreement being approved on June 18, 1968 and the Court deposit of $50 was withdrawn by the State.

Subsequent thereto, our Title Bureau advised us that since the owner is unable to convey clear title that the matter be submitted to the Commissioner for authority to condemn.

It is recommended that authority be granted to re-institute condemnation proceedings for the acquisition of Parcel 100 in fee simple and authority is requested to file a declaration of taking and to deposit with the Court $150. At the hearing before the Commissioners, an award of $10,000.00 was granted. Fair Market Value was registered in the amount of $8,050.00. The owner's witness testified as to $15,000.00. The State's expert testified to $8,050.00 for the entire taking of an improved parcel. There was a deposit paid in the court in the amount of $7,100.00 on August 2, 1967.

It is recommended that the award in the amount of $10,000.00 be approved and payment in the sum of $2,900.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest.

This is a corrected Department Action Slip due to an error in Department Action Slip dated September 5, 1968 and which latter is herewith recinded.

The commissioners' award was in the amount of $164,500 and the State was obligated to pay interest on the excess of the jury verdict ove the deposit. The deposit was made into court on July 14, 1966 in the amount of $89,350. This is a partial taking. The commissioners' award of $164,500 was appealed both by the State and the property owner.

Mr. Alvin Van Horn testified for the property owner and his opinion of value was in the amount of $207,000. Mr. William T. Ard and Mr. Seymour Simon testified for the State in the amount of $103,000 and $119,000 respectively.

The verdict was in the sum of $9,800.

Claims - Settlement

2 The Claims Bureau recently instituted a District Court Action against Stephen R. Florig in the Gloucester County District Court in connection with the Department of Transportation's claim in the amount of $66.90 arising out of an accident occurring on November 9, 1967 involving State vehicle being operated by Leonard F. Millen and a vehicle owned and operated by Stephen R. Florig. The insurance company originally refused to consider our claim and we instituted this suit as a matter of principle.

Subsequent to the filing of this action the insurance carrier contacted the Claims Bureau and offered 50% of our claim to avoid litigation, which offer was rejected. Further discussion by the Claims Bureau resulted in the insurance company increasing their offer to $49.95. In order to prove this case it would be necessary for us to produce the garageman who made the repairs, as well as, our own employee.

Inasmuch as the offer of settlement represents approximately 74% of our original claim, we feel the best interest of the State would be served if we accepted the offer as we could not travel to Woodbury, New Jersey and produce the necessary witnesses for $16.95, the difference between the offer and the full amount of our claim. It is therefore our recommendation that the offer of $49.95 receive favorable consideration and be approved, in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack. (October 24, 1968)

Claims - Settlement

8 The Department of Transportation is carrying a claim against Goodman Bros. Steel Drum Co. and Nathaniel Spann, both residents of the State of New York in the amount of $488.61 arising out of an accident occurring on US 1-9, Elizabeth, New Jersey on October 7, 1966. On the date in question the State vehicle bearing Reg. HYF-150, being operated by Walter H. Schulze was struck in the rear by the Goodman Bros. vehicle causing damage which had to be repaired at a cost of $488.61.

Inasmuch as this office was unsuccessful in collecting this claim, suit was instituted by the Claims Bureau in the Mercer County District Court. Since filing suit we have been contacted by the insurance company for the other vehicle involved, and an offer of settlement was made in the amount of $300.00. Subsequent negotiations by the Claims Bureau has resulted in the insurance company agreeing to pay the sum of $350.00 in full settlement of the State's claim. There were no witnesses to the accident in question and each driver gives a different version of what occurred.

Giving due consideration to the circumstances under which this accident occurred and the fact that there were no outside witnesses to the occurrence, we feel the offer of settlement in the amount of $350.00 is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack, that it be accepted and approved. (October 29, 1968)

Claims - Settlement

9 On July 17, 1967 a vehicle owned by Louis Viola Company, being operated by Raymond L. Baum ran into the front end loader bearing Reg. TD-2225 owned by the New Jersey Department of Transportation, being operated at the time by Louis A. LaNeve, Jr. As the result of said accident the front end loader was damaged and the operator of the State vehicle, Louis A. LaNeve, sustained personal injuries.

The personal injury aspect of this claim has now been settled and the Department of Transportation has been fully reimbursed for all medical expenditures made on behalf of its injured employee. The front end loader was damaged beyond repair and was traded in on another vehicle in its damaged condition. This office set up a claim against the third party in the amount of $1,607.37 covering the damage sustained by the Department's vehicle.

The insurance company did not agree with the method we used in arriving at this figure and offered the State the sum of $800.00 in full settlement of its claim. This offer was rejected and inasmuch as, the insurance company would not increase its offer, suit was instituted by the Claims Bureau in the Bergen County District Court against the owner and driver of the other vehicle involved. Since the institution of suit the insurance company increased its offer to $1,000 which offer was again rejected by the Claims Bureau. Subsequent negotiations by the Deputy Attorney General assigned to this case has now resulted in the insurance company offering the sum of $1300.00. A trial date had been set and while preparing this case for trial we learned that our driver is in California. The attorney assigned to this case feels the present offer of $1300 now represents a more realistic figure and it is our recommendation that it be accepted.

Giving due consideration to the fact that it would cost the State, both in time and money, to produce the necessary witnesses to prove our case, we feel the offer of $1300.00 is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack, that the offer receive favorable consideration and be approved. (November 1, 1968)

Right of Way - Route 35

103 There is presented again the matter of acquisition of property on Route 35 (1953), Section 8, From Front Street to Leonardville Road. Condemnation proceedings were previously authorized on May 3, 1967 for Parcel 108 in the name of Joycelyn Soden Midose, and Stanley F. Midose h/h, at which time the State's Registered Fair Market Value of $3,100. was offered to and refused by the owners who refused to negotiate or state a demand because the property was under contract of sale.

Subsequently, the ownership changed hands. A complaint and Declaration of Taking were filed, and the appraisals were updated to the date of complaint. Prior to a hearing and to avoid taking a small portion of the building, the engineers pulled in the Right of Way line and the parcel was revised to R108 in the name of D. & W. Liquors, Inc. (A N.J. Corp.) The parcel having been appraised and the State's Re-registered Fair Market Value being $3,300. was offered to and refused by the owner whose demand of $5,500. was considered excessive.

It is recommended that authority be granted to now condemn Parcel R108 instead of 108 and to amend the complaint to Parcel R108; further inasmuch as there was a court deposit in the amount of $3,100. representing the Registered Fair Market Value for Parcel 108 authority is now requested to deposit an additional $200. making a total on deposit the sum of $3,300., representing the Fair Market Value of Parcel R108. Burhans (widow), Executrix of George C. Lane Estate. On July 30, 1965 the Commissioner approved the institution of condemnation proceedings and the deposit of the fair market value determination in the sum of $3,950 was made in the Superior Court inasmuch as the owners were unable to clear title.

On the date fixed for the condemnation commissioners hearing, it was reported that a settlement could be achieved and clear title delivered and a Legal Division action was approved by the Commissioner on June 27, 1967 authorizing settlement in the sum of $3,950.

Subsequently, the owner's attorney advised that some of the heirs of this property are still unable to be located and that good title still cannot be conveyed.

Authority is, therefore, requested to rescind the Legal Division action of June 27, 1967 and that the original action of July 30, 1965 approving condemnation proceedings be re-instated.

Inasmuch as the deposit of $3,950 was never withdrawn from the Superior Court, no further request for a deposit is necessary. (October 29, 1968)

139 There is presented the matter of the consent Judgment entered against the State in the condemnation of property on Route 24F, Section 13, Parcel 2R25, formerly Parcel R25, owned by Angelo Giuliani.

The fair market value was originally registered in the amount of $32,700. It was re-registered in the amount of $17,100. This is an entire taking.

There is a factual dispute as to when the State took possession. It is the property owners' contention that the State took possession while the land was improved with the building. The building was subsequently demolished and the complaint was filed on June 29, 1965 when the property was vacant. The property owners' attorney presented letters from the State of New Jersey, Highway Department, to the tenant advising that the State acquired possession in March, 1965 and that the tenant vacated the premises in March, 1965 and the State paid the tenant moving expenses. It is the property owners' contention that as a result of these actions the State took possession.

A deposit of $32,700 was originally made with the Court and part of the deposit was withdrawn leaving a balance of $17,100.

The State's expert opinion of value in the jury trial would be in the amount of the fair market value, namely, $17,100 and the property owners' expert opinion of value would be in the approximate area of $33,000.

The Report of Commissioners was in the amount of $25,000 and a protective appeal was filed. It was recommended in the original commission action dated April 29, 1968 that the Commissioner approve the payment of the commissioners' award and the withdrawing of the appeal on the grounds that the factual evidence indicates that the time that the State took possession in March, 1965, the premises were improved with a building.

The parcel was revised after the original commission action and after the commissioners' hearing. Accordingly, for legal reasons a consent Judgment will be entered in this matter.

It is recommended that the Commissioner approve the payment of the consent Judgment plus any interest which accrues on the Judgment as computed by the Bureau of Titles. (November 1, 1968)

Administration Items

Claims - Settlement

1 The Department of Transportation is carrying a claim against Louis and Alfred Oliverie in the amount of $926.25 covering the cost of making repairs to Department vehicle bearing Reg. HYD 144 which was damaged on August 23, 1966 as the result of an accident involving a vehicle owned by Louis Oliverie and operated by Alfred Oliverie, and a State Highway Department vehicle being operated by George P.DeStefano.

The insurance company for the Oliveries took the position that their insured was not legally responsible for our damage and refused to make any payment in settlement of our claim. Suit was therefore instituted by the Claims Bureau in the Essex County District Court in an effort to recover the amount of the State's claim. After many adjournments this case was finally reached for trial recently and at a pre-trial conference, the insurance carrier offered to settle our claim for the sum of $750.00.

The Deputy Attorney General assigned to this case felt the offer was reasonable and advised the court that he would accept it on behalf of the State of New Jersey. It is therefore our recommendation that the offer of $750 in full settlement of this claim receive favorable consideration and be approved, in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General william J. McCormack. (November 14, 1968)

Consulting Services
Robins Engineering, Inc.
Pavement heating research

The contract negotiated at the price specified was to provide the necessary services as an approximate engineering fee and was based on corrections and additions to plans and specifications that had been prepared by the Division of Research and Evaluation. At the commencement of work it was found that it would be necessary to have all new drawings made and the consultant was authorized by the Director of Research to do so. This necessitates a change in the total contract price from $3,500 to $6,090 -- or an addition of $2,590.

It is, therefore, proposed and requested approval be granted to change the amount of the contract in Article III to read "Amount estimated not to exceed $6,100". **(November 15, 1968)**

106 There is again presented the matter of the Judgment entered against the State in the sum of $11,000 plus interest concerning the condemnation of property on Route 20F, Section 2, Parcels 5A & 5B owned by Stephen Deutsch. At the jury trial held on June 19 and 20 the State offered testimony in the amount of $7,000. The property owners offered testimony in the amount of $17,000. Fair market value was established in the amount of $7,000 and there was a deposit in the amount of $4,500. The verdict was in the amount of $11,000 plus interest and costs.

On July 3, 1968 the Commissioner approved an action prepared by the Department of Law. This action was incorrectly prepared necessitating a request to the Legal Division to prepare a commission action so that payment could be made.

A corrected action prepared by the Legal Division was submitted to the Commissioner on November 1, 1968 requesting authority to pay $11,317.34 which sum represented the verdict plus interest to June 20, 1968 less the sum of $4,500 previously deposited. Inadvertently this action did not include authority to pay costs which were included in the Judgment or interest from the date of entry of the Judgment to the date of payment.

The matter is therefore re-submitted with a request that further authority be granted to pay the costs, plus interest from June 20 which was the date of entry of the Judgment to the date of payment. (November 8, 1968)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $5,000. S. 46, Parcels 24A, 24B, and 25A, Frances Futeran. Condemnation proceedings were previously authorised by the Commissioner on May 3, 1967 and the State's Fair Market Value determination of $4,650.00 was deposited in the Superior Court.

At the Commissioners hearing the owner testified to a value of $30,625.00 while the State produced testimony in the amount of $4,650.00. The Commissioners rendered an award in the sum of $10,500.00.

Although an appeal from the award of the Commissioners was recommended and approved by the Commissioner on September 26, 1968, no appeal was filed within time due to the shortage of personnel and resultant administrative limitations. It is, therefore, now recommended by this corrected Department Action Slip that the award be paid. **(November 18, 1968)**

The State was represented by Fee Attorney David Rothberg.

This is a special purpose public property on which there are legal questions on the evaluation approach. Despite the wide variance between the State's testimony and the award, no appeal is recommended because, additionally, a jury would be just as likely as the Commissioners to sustain an award considerably higher than the state's appraisal, due to the fact that the building was used for retarded students.

This is a corrected Department Action Slip due to an error in Department Action Slip dated October 17, 1968 and which latter is herewith recinded. (November 18, 1968)

Condemnation proceedings were previously authorized at which time the owner's demand of $10,500., was considered excessive.

At a hearing before Commissioners an award was rendered in the sum of $7,300., which was subsequently appealed by the State. Prior to a court hearing, the Trial Attorney contacted Right of Way concerning a possible settlement close to the Commission award including interest due the owner and it was agreed by both the Legal and Right of Way Divisions that if this case continued that a reduction in the award could not be achieved thus a settlement with the owner in the amount of $7,200. was both reasonable and in the best interest of the State.

An agreement was secured as follows:

Parcel 2R63	Paul F. Rietzke & Sylvia E. Rietzke, h/w	Consideration $7,200.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $5,500. Interest due the owner amounts to some $1,013. The variance not being substantial, approval is recommended.

It is further recommended that condemnation proceedings previously authorized be rescinded and authority be granted to withdraw the sum of $3,844. previously deposited into the Superior Court under Declaration of Taking. (November 22, 1968)

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $99,800. The variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be rescinded.

No court deposit has been made on this case.

It is further recommended that authority be granted to dispose of the 2 story, 1 family dwelling to the road contractor, by public auction or sealed bids.
(November 19, 1968)

Condemnation proceedings were previously authorized on August 9, 1968 at which time the State's Registered Fair Market Value of $12,025. for Parcel R17A and $175. for the 2 remnants was offered to and refused by the owners whose demand of $18,000. was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R17A	Sylvia Catusco and Dorothea Catusco (both single) Heirs at Law of Irene Martin Catusco (deceased).	Consideration $12,725.
Damaged Remnants to Be Acquired		$ 175.

It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on August 9, 1968, be discontinued.

Upon taking of possession, authority is requested to dispose of the one story frame dwelling and the one story concrete block garage and storage building with 2 attached sheds to the road contractor, by public auction, or by sealed bids. (November 22, 1968)

Subsequently, a new opinion of value was secured and the Fair Market Value was re-registered in the amount of $2,500. During the Commission Hearing the trial attorney, contacted Right of Way and requested an administrative settlement in the amount of $3,000. as the Award plus interest would probably be higher than the State's testimony.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 16 Andrew Pyar & Olga, h/w Consideration $3,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $2,500. The variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

Right of Way - Route 35 Freeway

89 There is presented again the matter of acquisition of property on Route 35 Freeway, Section 2, Federal Project F-207-(3), From Shark River to Poplar Road, Parcel 77, Donald L. Connelly and Mary J. h/w. Condemnation proceedings were previously authorized on August 5, 1966, at which time the State's Registered Fair Market Value of $21,000. was offered to and refused by the owners whose demand of $34,500. was considered excessive.

Subsequently, at the request of our Legal Divison, an excess appraisal was ordered and an appraisal updating resulted in the Fair Market Value being re-registered in the amount of $23,600.

On April 15, 1968 a Commission hearing was held and an award was rendered in the amount of $28,500. which was appealed by the State.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 77 Donald L. Connelly & Mary J. h/w Consideration $26,500.
includes the court deposit of $23,600.
previously withdrawn

The parcel has been appraised and the Fair Market Value Determination is $23,600. Although the variance is substantial the agreement represents a reduction of $2,000. from the award at the Commission hearing and based on our past court experience in Monmouth County this agreement would appear to be in the public interest. It is therefore recommended that this agreement be approved and that the Condemnation proceedings previously authorized on August 5, 1966 be discontinued.

Further authority is requested to dispose of the 2-story frame dwelling and 1-story frame antique shop to the road contractor, by public auction or by sealed bids. The balance of the improvements have been removed by the contractor in the performance of his duties.

Further authority is requested to make payment in the sum of $2,900. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from court. (November 18, 1968)

Subsequently, an updated appraisal was secured which resulted in the fair market value being re-registered in the sum of $5,800.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 120 Joseph A. Citta & Lillian R. Citta, h/w. Consideration $6,300.

This parcel has been appraised and the Reviewer's re-registered fair market value determination is $5,800. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking and make payment of the additional sum of $1,025 to the owners. (November 19, 1968)

Right of Way - Route 37 Freeway

91 There is presented again the matter of acquisition of property on Route 37 Freeway, Section 1, From U. S. Route 206 to New Jersey Turnpike. Condemnation proceedings were previously authorized on June 24, 1968, at which time the owners were demanding $22,000.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 55 George A. Meiler, Jr. & Claire A. Meiler, his wife Consideration: $19,000.00
Including a Down Payment of: 4,750.00

This parcel has been appraised and the Reviewer's registered Fair Market determination is $18,000. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

It is further recommended that authority be granted to dispose of the 1½ story dwelling to the road contractor by public auction or by sealed bids.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (November 19, 1968)

92 Right of Way - Route 76

There is presented again the matter of acquisition of property on Route 76 (1953), Section 1, Federal-aid Project I-76-8-(12), Benjamin Franklin Bridge to Kaighn Avenue. Condemnation proceedings were previously authorized for this parcel on January 23, 1967 at which time the owners' demand of $6,500 plus other contingencies were considered excessive.

Subsequently, an appraisal updating resulted in the Fair Market Value remaining in the same amount of $6,200. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 96	Charles M. Davis & Beulah E., h/w	Consideration $7,050

The parcel having been appraised and the Reviewer's Fair Market Value Determination being $6,200, and the variance not being substantial, this agreement would appear to be in the public interest. It is recommended that this agreement be approved and the condemnation proceedings previously authorized on January 23, 1967 be discontinued.

Further authority is requested to withdraw the deposit of $6,200 heretofore made into the Superior Court under Declaration of Taking.

The building was demolished by the road contractor in the performance of his duties. **(November 22, 1968)**

93 Right of Way - Route 78

There is presented again the matter of acquisition of property on Route 78, Section 5E, Federal-aid Project I-78-5-(4), Garden State Parkway to Lyons Avenue. Condemnation proceedings were previously authorized, as the owner's demand was $26,500., which was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 121	Helen Popovich, widow	Consideration $23,250.

This parcel has been appraised and the Reviewer's registered fair market value determination is $22,500. The variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. There has been no court deposit on this case.

It is further recommended that authority be granted to dispose of the dwelling and garage to the road contractor, by public auction or sealed bids.
(November 22, 1968)

94 Right of Way - Route 78

There is presented again the matter of acquisition of property on Route 78, Section 5E, Federal Aid Project I-78-5-(7), Elizabeth Avenue to Port Street. Condemnation proceedings were previously authorized for Parcel 2R4, Miller Warehouse Co., and for Parcel R5, Al Miller, as the owners' demand for both parcels was $250,000., which was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 2R4, R5 Miller Warehouse Co. & Al Miller
(Same Beneficial Ownership)
Seller to demolish that portion of building within
Parcel R5 and 2R4, and also to clear the Right of
Way on behalf of the State entirely at his expense.

Net Consideration..............................$120,000.
Including a down payment of $30,000.

The parcels have been appraised and the Reviewer's Value for the part taken and damages to the remainder is $98,500. This agreement is considered equitable and in the public interest in that the State would otherwise be obligated to demolish the structure within the Right of Way line and construct a temporary wall for the building on 2R4 which several architects' studies indicate would cost upwards to $20,000. Whereas the market resale and salvage value of the building on Parcel 25, which would otherwise be conveyed to the State in its entirety, is indicated by a retention estimate to be only $500. If the $20,000. cost of clearing the Right of Way which is to be absorbed by the owner is added to the Fair Market Value, the total would be $118,500. Approval is recommended.

It is also recommended that condemnation proceedings previously authorized be rescinded. There has been no court deposit made on this case. (November 25,1968)

Right of Way - Route 287

95 There is presented again the matter of acquisition of property on Route 287 (1953), Section 13, Federal-aid Project I-287-3-(5), Intervale Road to Main Road, Montville. An agreement was secured for Parcels 56A,56B,56C,56D,56E,56F and 56G from Charles A. Righter and wife, and Howard A. Rasmussen & wife. The Commissioner approved this agreement by commission action on December 12, 1961. Subsequently, Parcel 56A was eliminated by our engineers as not being required for highway construction on this Route and Section; and Parcel 56B was revised to Parcel R56B necessitating re-appraisals and re-negotiations.

The parcels were therefore re-appraised and the Fair Market Value was re-registered in the sum of $3,000. Continued negotiations resulted in the execution of an agreement as follows:

Parcels R56B,56C,56D,56E, 56F and 56G	Howard A. Rasmussen & wife Charles A. Righter & wife	Consideration	$4,080.

The owners have agreed that this agreement will supersede the previous agreement which will be considered void.

As entry was made by the State in 1961 and if this case were to continue in condemnation, the courts would allow interest due the owner in the amount of $1,260 which would exceed this settlement, therefore, the agreement would appear fair and in the public interest, approval is recommended. Further authority is requested to rescind the previous commission action of December 12, 1961 and that Parcel 56A not being required, be deleted from the General Property Parcel Map. (December 2, 1968)

Right of Way - Route 440 Freeway

96 There is again presented the matter of acquisition of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized on October 13, 1967 at which time the reviewer's fair market value determination was in the sum of $33,500 which the owners would not accept. Subsequently, updated appraisals were secured which resulted in the Fair Market Value being re-registered in the sum of $37,000.

Continued negotiations have resulted in an agreement as follows:

Parcel 68	John Egan & Helen Egan, h/w	$37,000.
	Less Owner's Retention and Removal of Dwelling	1,750.
	Net Cash Consideration	$35,250.
	Including a down payment of	8,800.

The parcel having been appraised and the Reviewer's re-registered Fair Market Value determination being $37,000., the retention estimate is $1,750., approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (November 19, 1968)

Right of Way - Route 440 Freeway

97 There is again presented the matter of acquisition of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized on November 15, 1967 at which time the reviewer's Fair Market Value determination was in the sum of $24,750 which the owners would not accept. Subsequently, updated appraisals were secured which resulted in the Fair Market Value being re-registered in the sum of $30,000.

Continued negotiations have resulted in an agreement as follows:

Parcels 139A,B	William J. Convery and Veronica Convery, h/w.	Consideration $30,000.

The parcels having been appraised and the Reviewer's re-registered Fair Market Value determination being $30,000., approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued.

It is further recommended that authority be granted to dispose of the dwelling to the road contractor, by public auction or by sealed bids.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (December 2, 1968)

Right of Way - Route 440 Freeway

98 There is presented again the matter of acquisition of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized on December 22, 1967, at which time the owner was demanding $2,000.

Contined negotiations have resulted in the execution of an agreement as follows:

Parcel 223	Mary Kmiec, Widow and Josephine Kmiec, single	Consideration $1,300.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $800. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (November 19, 1968)

Right of Way - Route 17

99 There are presented report and appraisal with map and description on

Route 17 (1953), Section 4, Control Section 0212401, From Ridge Road to Route U.S. 46, Parcels 166A, 166B, 166C, E166D, E166E, Erie Lackawanna Railway Company.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels, in fee simple, plus easements, subject to any public utilities existing in the premises. The suggested settlement of $16,500. was not accepted by Agent pending receipt of owners' appraisal.

This parcel was appraised and the Reviewer's registered fair market value determination is $16,500.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $16,500. (December 2, 1968)

Right of Way - Route 17

100 There is presented again the matter of acquisition of property on Route 17, Section 4, Control Section 0212401, From Ridge Road to Route U.S. 46, Parcel E179B Grace Rosenthal, Carrie Greenwald & Mildred D'Angelo, T/A Gracarmil Realty Co. (a partnership). Condemnation proceedings were previously authorized as the owners' agent refused to state a demand and the sum of $8,000 was deposited in the Superior Court.

Subsequently, the Engineering Division revised Parcel E179B to ER179B. This parcel was appraised and the Reviewer's registered Fair Market Value Determination is $3,500., which was refused by the owners whose demand of $16,000 is considered excessive.

It is recommended that the previous action authorizing condemnation for Parcel E179B be discontinued and that condemnation proceedings be authorized for the acquisition of Parcel ER179B.

Further authority is requested to amend the complaint and substitute the map and description for Parcel ER179B in the place and instead of those previously filed for E179B and to withdraw the sum of $4,500 from the Superior Court leaving a balance of $3,500 in the Superior Court which is the registered Fair Market Value. (December 2, 1968)

Right of Way - Route 17

101 There is presented again the matter of acquisition of property on Route 17 (1953), Section 4, Control Section 0212401, From Ridge Road to Route U.S. 46, Parcel E217, Vincent Dahman & Madeline, h/w. Condemnation proceedings were previously authorized as the owner's demand of $1,000. was considered excessive and on January 24, 1968 a complaint and declaration of taking was filed with the Superior Court of New Jersey and the sum of $250., which represents the registered fair market value, was deposited therein.

Subsequent thereto it was determined by the engineers that Parcel E217 was no longer required for highway construction and they further requested that the parcel be eliminated.

It is therefore recommended that Parcel E217 be eliminated and that application be made to the Superior Court authorizing abandonment of the taking.

Further authority is requested to withdraw the sum of $250 previously deposited in the Superior Court under Declaration of Taking. (December 2, 1968)

Right of Way - Route 17

102 There are presented report and appraisal with map and description on Route 17, Section 5, Federal Project F-102-(26), Control Section 0217402, from Ridgewood Avenue to Allendale Avenue, Parcel E223, 17 Winter Corporation.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel subject to any public utilities existing in the premises. The agent refused a suggested settlement in the sum of $250. and demanded $10,000., which is considered excessive.

This parcel was appraised and the Reviewer's registered fair market value determination is $250.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $250. (December 2, 1968)

Right of Way - Route 18 Freeway

103 There is presented again the matter of acquisition of property on Route 18 Freeway, Section 9, Federal Project F-112-(26), From Route 79 To Route 34, Leonard Moore, single. An agreement was previously approved by the Commissioner for Parcel 43 in the name of Leonard Moore, single, in the amount of $9,100. on March 3, 1967.

Subsequently, we were advised by our Title Bureau that the owner cannot convey clear title due to a judgement against the property and in addition, a subdivision of the property necessitated a map revision. The parcel designations are now 43A1, in the name of Leonard Moore, single and 43A2 in the name of Margaret Coley Naughton & Peter Naughton, h/h.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 43A1 in fee simple, subject to any public utilities existing in the premises and that the previous action of March 3, 1967 granting approval for Parcel 43 be rescinded. The State's Registered Fair Market Value of $7,400. was offered to and is acceptable to the owner, however, the owner is unable to convey clear title.

Should, prior to the ultimate fixing of compensation any proceedings or provisions relating to the acquisition of this parcel delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to file a Declaration of Taking and deposit with the Superior Court $7,400. (December 2, 1968)

Right of Way - Route 21 Fwy

104 There are presented report and appraisal with map and description on

Route 21-Fwy-Section 4, Federal Aid Project U-126-(18), From Route 3 to Monroe Street, Parcel R145, Isadore Orenstein & Ray Orenstein, h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. Owner refused a suggested settlement in the sum of $17,100 as a result of his inability to add a clause to the State's agreement form regarding driveways to be built by the State.

This parcel was appraised and the Reviewer's registered Fair Market Value determination is $17,100.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $17,100. (November 21, 1968)

Right of Way - Route 24

105 There are presented report and appraisal with map and description on Route

24 (1953), Section 3, Federal-aid Project LSF-63-(1), From Route 69 To Road To Mt. Bethel, Parcel LR2B, Edward Faber & Sylvia Faber, h/w.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $13,100.

The owners refused an offer of $13,100 and would not make known their demand. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $13,100.
(November 21, 1968)

Right of Way - Route 24F

106 There is presented again the matter of acquisition of property on Route 24F, Section 11, Federal-aid Projects U-204-(10), LSF-204-(1), Ridgedale Avenue, Florham Park to River Road, Parcels 3R80A,2R80B,80C,L80D,L80E, Prudential Insurance Company.

This acquisition was appraised and the Reviewer's Fair Market Value Determination being $1,100,000, the Headquarters' reviewers were of the opinion that a settlement within a reasonable range of the appraisals would be equitable both to the owner and the State. Therefore, an option which was secured from the owners in the amount of $1,042,000 was recommended to and executed into an agreement by the Commissioner by an action dated June 20, 1968.

The provisions of this agreement provided for a metes and bounds description which was to be made a part of the deed. The metes and bounds description, as provided to the Right of Way Division by the engineers, indicated a gain of 0.226 acres on one tract being acquired, and a loss of 0.957 acres on the other tract, therefore indicating that the State would acquire 0.731 acres less than originally anticipated.

An analysis by the Appraisal Bureau indicates that a proportionate adjustment of the appraisals to conform with this area reduction results in a value estimate of $1,075,000. This is not a substantial change and indicates that the settlement continues to be fair and reasonable.

The matter is resubmitted with a request for authority to accept a deed based on the reduced area without any change in the agreed consideration of $1,042,000.
(December 2, 1968)

Right of Way - Route 24 Freeway

107 There are presented report and appraisal with map and description on Route 24, Freeway, Section 12, Federal-aid Project U-204-(6), River Road To Route 78; Parcel 96, Arthur E. Schmauder & Violet E. Schmauder, h/w.

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $15,150.

The owners refused an offer of $15,150 and demanded $18,000, which is considered excessive. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $15,150.
(December 2, 1968)

108 There is presented again the matter of condemnation of property on Route 37 (1927), From Island Heights to Seaside Heights Bridge Over Barnegat Bay and Approaches, Parcel 3R32, Double N. Inc. (a N.J. Corp.). Condemnation proceedings were previously authorized by the Commissioner on December 5, 1966 after the State's registered fair market value of $16,400 had been offered to and refused by the owner whose demand of $95,000 was considered excessive. The $16,400 was deposited in the Superior Court.

Subsequently, an additional appraisal was secured, as well as appraisals up dated to the date of the filing of the Complaint on August 22, 1967, which resulted in the fair market value being re-registered in the sum of $22,500, which was also offered to and refused by the owner whose demand of $108,625 was considered excessive.

Authority is, therefore, requested to deposit the additional sum of $6,100 in the Superior Court making the total on deposit the sum of $22,500. (November 21, 1968)

(November 21, 1968)

Right of Way - Route 37 Freeway

111 There is presented again the matter of condemnation of property on Route 37 Freeway, Section 4, From Monmouth Road (County Route 537) to Garden State Thruway. Condemnation proceedings were previously authorized for Parcels 33A and R33C, Josephine Toporek, widow, due to a faulty title.

Subsequently, due to a map revision, Parcel R33C was changed to 2R33C. Negotiations were continued on this basis. The owner still cannot convey clear title.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of parcels 33A and 2R33C in fee simple subject to any public utilities existing in the premises; and that the previous action dated March 1, 1968, covering parcels 33A and R33C be rescinded.

Should prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court the sum of $9,500.00., inasmuch as a deposit has not been made on the previously designated parcels. (December 2, 1968)

112 **Right of Way - Route U.S. 46**

The State's Registered Fair Market Value of $8,900. was offered to and refused by the owners whose demand of $12,500. was considered excessive.

Should, prior to the ultimate fixing of compensation any proceedings or provisions relating to the acquisition of this parcel delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to file a Declaration of Taking and deposit with the Superior Court $8,900.
(November 21, 1968)

114 **Right of Way - Route 78**

There is presented again the matter of acquisition of property on Route 78, (1953), Section 3A, Project I 78-3-(7), Allerton Road to Cokesbury Road. Condemnation proceedings were previously authorized for Parcel R25E, Ben Levine, Harry Eisenberg, Louis Levine, as executors of the Estate of Max Levine, et als.

Based on a legal instruction involving zoning, revised appraisals resulted in the Fair Market Value being re-registered in the sum of $42,800. which was offered to and refused by the owner who demands $100,000. which includes Parcels 25A, R25B, 25C, 25 and R25G, which is considered excessive.

Inasmuch as the sum of $27,000. was previously deposited in the Superior Court, authority is now requested to deposit the additional sum of $15,800. making the total of $42,800. on deposit. **(December 2, 1968)**

The attorney refused a suggested settlement in the sum of $27,500. and demanded $30,000., which is considered excessive.

Further authority is requested to dispose of the 3 story frame dwelling and 2 car detached garage to the road contractor by public auction or sealed bids. **(November 21, 1968)** ✓

Right of Way - Route 80

Bolton Dockrell and Bernice, h/w. Condemnation proceedings were previously authorized on September 11, 1968. No complaint was filed.

Subsequently, Parcel UE23D was eliminated. Therefore, it is recommended that previous condemnation proceedings be rescinded and that authority be granted to continue condemnation proceedings for the acquisition of Parcels 23A and 23B in fee simple subject to any public utilities existing in the premises.

Parcels 23A and 23B have been appraised and the Reviewer's registered Fair Market Value Determination is $99,000.

Should, prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and deposit with the Court the sum of $99,000. **(December 2, 1968)** ✓

Right of Way - Route 80

117 There is presented again the matter of acquisition of property on Route 80, Section 4E, Federal-aid Project I-80-4-(10), from Two Bridges Road to Glover Avenue, Parcel E46, Wayne Interchange, Inc. Condemnation proceedings were authorized for the acquisition of this parcel on June 7, 1966.

Subsequently, the parcel was revised by the Engineering Division and designated as RE46. The parcel was then re-appraised and the Reviewer's registered Fair Market Value Determination is $2,100. Re-negotiations with the owner's agent resulted in a refusal of our suggested settlement of $2,100., and a demand of $25,000., which is considered excessive. It is therefore recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel, subject to any public utilities existing in the premises, and that condemnation proceedings previously authorized be rescinded.

It is further recommended that the complaint on file with the Superior Court be amended to substitute the maps and descriptions for Parcel RE46 in the place and instead of maps and descriptions previously filed.

It is also recommended that the additional sum of $100., be deposited with the Superior Court which in addition to the original deposit of $2,000., will make a total deposit of $2,100. **(November 21, 1968)** ✓

Right of Way - Route 80

118 There is presented again the matter of acquisition of property on Route 80, Section 4E, Federal-aid Project I-80-4-(10), from Two Bridges Road to Glover Avenue, Parcel ER103A, West River Realty. Condemnation proceedings were previously authorized for the acquisition of this parcel on May 19, 1966.

Subsequently, the engineers revised the parcel which is now designated as Parcel E2R103A. This revised parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $250. Re-negotiations were conducted with the owner's agent who accepted the Fair Market Value offer but inserted wording into the agreement forms relative to the parcel description which is not acceptable to the State engineers.

It is therefore recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel E2R103A subject to any public utilities existing in the premises and that the commission action dated May 19, 1966 for Parcel ER103A be rescinded.

Claims - Settlement

The Department of Transportation is carrying a claim against Luis Ramos and Joseph LoPresti, Jr. in the amount of $848.62 in connection with damage sustained by its traffic signal equipment arising out of an accident occurring on May 18, 1967, involving a vehicle owned and operated by Luis Ramos and a vehicle owned and operated by Joseph LoPresti, Jr. From the information in the police report it would appear that the Ramos vehicle was wholly responsible for the damage sustained by the State equipment.

Mr. LoPresti reported to the police officer at the time of the accident that he was stopped in the East bound lane of Route 17 waiting to make a left hand turn on to Paterson Avenue when the Ramos vehicle swerved passed him and caught his left bumper with his left rear fender. The Ramos vehicle then continued on and struck the utility pole and the traffic control box. The Claims Bureau has been unable to locate the present whereabouts of Luis Ramos. The Motor Vehicle authorities are attempting to locate Mr. Ramos, but also have been unsuccessful in their efforts.

The insurance company representing Mr. LoPresti, in an effort to bring about a settlement of this claim, as far as their assured is concerned, is willing to pay 50% of our claim. In view of the information in the police report we do not see how we can press a claim successfully against Mr. LoPresti. Inasmuch as we cannot locate the other driver, we feel the insurance company's offer is fair and reasonable, and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack, that the sum of $424.31 be accepted in full settlement of the Department of Transportation's claim. (December 9, 1968)

Condemnation proceedings were previously authorized on March 3, 19[illegible] at which time the State's Registered Fair Market Value of $550. was offered to and refused by the owners whose demand of $1,500., was considered excessive.

Parcel 55	John Azzolina and Sons (A N.J. Corp.)	Consideration $1,200.

Condemnation proceedings were previously authorized at which time the owners' demand of $4,525. was considered excessive.

At a hearing before Commissioners held May 15, 1968, the State's case was presented without the State's expert which resulted in an award being rendered in the sum of $3,500. which was later appealed by the State.

Prior to a jury trial which was scheduled for November 12, 1968, continued negotiations with the Borough of Fairfield's attorney resulted in the willingness to settle for a cash consideration including the conveyance of an excess parcel; Route 80, Section 3D, Parcel 46B.

An agreement was secured as follows:

At a hearing before Commissioners, an award in the amount of $25,700 to which the court would have added interest was appealled by authority of the Commissioner granted on April 1, 1968.

Prior to the trial of the appeal, it became known that a settlement could be achieved in the amount of $24,950 inclusive of interest and all other claims against the State. The Trial Attorney and the Right of Way Director mutually concurred that it would be in the public interest to achieve an amicable agreement.

Prior to the execution of this agreement, Mr. McCormack submitted to the Commissioner an action to "approve the agreement in this matter" dated November 1, 1968.

The Right of Way Division has now consummated the agreement and so that it may be considered by the Commissioner and executed, the matter is again submitted with a recommendation that the agreement be approved and upon acceptance that the Commissioner execute the agreements on behalf of the State.

115 There is presented again the matter of acquisition of property on Route 78, Section 5D, Federal Aid Project I-78-5-(3), Springfield Avenue to Garden State Parkway, Parcel R10, Victory Engineering Corporation. Condemnation proceedings were previously authorized by the Commissioner on November 9, 1965 as the owner's demand of $52,000 was considered excessive.

Prior to the commission hearing, the Trial Attorney indicated that a settlement could be achieved in the amount of $49,000 inclusive of interest and all other claims against the State. The Trial Attorney and the Right of Way Director mutually agreed that it would be in the public interest to achieve an amicable settlement.

Prior to the execution of this agreement, Mr. McCormack submitted to the Commissioner an action to "approve the agreement in this matter" dated November 1, 1968.

The Right of Way Division has now consummated the agreement and so that it may be considered by the Commissioner and executed, the matter is again submitted with a recommendation that the agreement be approved and upon acceptance that the Commissioner execute the agreements on behalf of the State.

This action supersedes the action of November 1, 1968. It is further recommended that authority be granted to discontinue condemnation proceedings and to make payment to the owner the sum of $17,000 representing the difference between the court deposit of $32,000 previously withdrawn by the owner and the amount of the agreement of $49,000. Subsequently, an excess appraisal was secured which resulted in the Fair Market Value being re-registered in the amount of $4,000. A Commission Hearing was held on January 30, 1967, and an award was rendered in the amount of $5,500 which was appealed by the State.

Prior to the jury trial, both the Legal Division and Right of Way Division felt that a reduction of the award could not be achieved, this being a religious institution and home for the blind, and that a verdict would probably exceed this amount. It is therefore recommended that the agreement be approved as being reasonable and in the best interest of the State and that the condemnation proceedings previously authorized on May 16, 1966 be discontinued.

Legal Counsel for the State of New Jersey has directed that Parcels RT100A and RT100B be submitted for condemnation without an offer being made due to the fact that there are various claimants to the ownership of these lands. In accordance with direction of the State's Legal Counsel, authority is requested to institute condemnation proceedings for the acquisition of these parcels in fee simple subject to any public utilities existing in the premises.

Should prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the court $1,868,500.

Upon taking of possession authority is requested to dispose of the improvements to the road contractor by public auction or sealed bids. (December 12, 1968)

Dickerson and wife. By action dated December 6, 1967, the Commissioner approved the rescinding of an agreement previously approved on November 10, 1966 between Harold K. Dickerson, et ux in the consideration of $6,600, including a down payment of $800. The rescinding of the agreement was due to the fact that a settlement could not be accomplished as the liens against the property exceeded the amount of the balance to be paid by about $2,000. The commission action of December 6, 1967 also granted authority to institute suit against Harold K. Dickerson, et ux for the recovery of the down payment of $800.

Our Title Bureau has now advised that a subsequent request by the owners' attorney to close under the agreement and the lack of notice in the folder of condemnation proceedings allowed this office to proceed toward and consummate a closing based on the agreement.

Authority is, therefore, requested to rescind the condemnation action of December 6, 1967 and to re-instate the approval of the agreement dated November 10, 1966.

The building formerly situate on this parcel was demolished by the contractor in the performance of his duties on May 29, 1967. No further authority is, therefore, requested for disposal of the improvements. (December 23, 1968)

99 Right of Way-Route 78

There is presented again the matter of condemnation of property on Route 78 (1953), Section 3A, Federal-aid Project I-78-3-(7), Allerton Road to Cokesbury Road. Condemnation proceedings were authorized by the Commissioner on February 7, 1966 for Parcel 25E at which time authority was granted to deposit the State's registered fair market value of $27,400 in the Superior Court.

Subsequently, the engineers reduced the area of taking slightly which resulted in the State's fair market value registration being lowered to $27,000 and a commission action was approved on December 5, 1966 granting authority to file a declaration of taking covering Parcel R25E and to deposit with the court the reduced sum of $27,000. However, in the intervening time the Legal Division accomplished a deposit in the original sum of $27,400 and the new action calling for the reduced sum of $27,000 to be deposited was never accomplished so that the $27,400 remains on deposit. Owners name is Ben Levine, et als.

The commission action of December 2, 1968 inadvertently reflects the fact that the sum of $27,000 was on deposit and requested authority to deposit an additional sum of $15,800 in order to make the total on deposit the sum of $42,800; which sum is the State's revised fair market value based on a recent change in zoning.

Authority is, therefore, requested to amend the action of December 2, 1968 and to deposit the additional sum of $15,400 rather than $15,800 which had been requested. (December 23, 1968)

Right of Way-Route 440

There is presented again the matter of acquisition of property on Route 440 Freeway, Section 1, Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized by the Commissioner on October 19, 1967 at which time the owners refused to state a demand. The reviewer's registered Fair Market Value was in the sum of $15,500 for Parcels 188B, E188G and E188H, Boise Cascade Corporation (A Delaware Corporation).

Subsequently, updated appraisals resulted in the Fair Market Value being re-registered in the sum of $41,700 which was offered to and refused by the owner's agent who demand $700,000 for all seven parcels which is considered excessive.

Inasmuch as the sum of $15,500 was previously deposited in the Superior Court, authority is now requested to deposit the additional sum of $26,200 making the total on deposit the sum of $41,700. (December 23, 1968)

Authority is now requested to deposit the additional $475,600 in the Superior Court making a total of $667,200 on deposit. (December 23, 1968)

Right of Way-Route 440F

There is presented again the matter of condemnation of lands on Route 440F, Section 2, Control Section 0918401, 63rd Street to Bayonne Bridge. Condemnation proceedings were previously authorized for Parcel 3B and 9 on January 19, 1967 at which time the owners rejected our offer of $19,200. and made no monetary demand. On February 23, 1968, a complaint was filed and the sum of $19,200. was deposited with the Superior Court.

Subsequently, the parcels were revised by the engineers and are now designated as R3B and 9, Public Service Electric and Gas Company. These parcels have been appraised and the Reviewer's registered Fair Market Value Determination is $19,600. Re-negotiations with the owner resulted in a refusal of our offer of $19,600. and a demand of $37,000. which is considered excessive.

It is recommended that condemnation proceedings previously authorized for Parcels 3B and 9 be rescinded and that authority be granted to institute condemnation proceedings for the acquisition of Parcels R3B and 9 in fee simple subject to any public utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcels R3B and 9 in the place and instead of those previously filed. Authority is requested to deposit an additional $400. with the Superior Court which when combined with the $19,200. already upon deposit will make a total on deposit of $19,600. (December 23, 1968)

Appraisal Orders

140 There is presented the matter of certain Appraisal orders previously approved as follows:

1968-A-89 to James J. DeBow. The order was for Parcels R27A & LR27B on Route 70, Section 14. This acquisition was later revised from an entire to a partial taking and since the estimated value of the partial taking would be less than $15,000 the appraisal by Mr. DeBow is no longer required. Authority is requested to rescind the former action pertaining to this order.

1968-A-671 to New Jersey Appraisal Company. The order was for an updated appraisal of Parcel E55, Route 15, Section 3. This parcel was authorized for condemnation. We have since received an agreement so the addendum appraisal is no longer required, and authority is requested to rescind the former action pertaining to this order.

1968-A-495 to Jack W. Harelick. This order covered two acquisitions, one of which was Parcel R224 on Route 80, Section 4E. The order was for an updating to the complaint date. Since an agreement has been secured the updated appraisal is no longer required, and authority is requested to rescind that portion of previous action pertaining to Parcel R224.

1968-A-556 to Joseph Martin. The order covered two parcels on Route 37 Freeway, Section 3, one of which was an addendum appraisal for Parcel 3. This parcel was authorized for condemnation and we have since received an agreement so the addendum is no longer required, and authority is requested to rescind that portion of previous action pertaining to Parcel 3. Right of Way-Route 17

There is presented the matter of the Commissioners' award in the condemnation of property on Route 17, Section 4, Parcel 34, in the Borough of East Rutherford owned by the Board of Education of the Borough of East Rutherford, et als.

At the hearing before the Commissioners an award of $35,000.00 was granted. Fair Market Value was registered in the amount of $23,450.00. The State's expert testified as to $23,450.00. Owners witness testified as to the value of the partial taking plus damages to the remainder was $53,500.00. There was a deposit paid into court in the amount of $20,150.00 on February 7, 1968. State was represented by Fee Attorney Julius A. Feinberg.

The award is excessive, and it is recommended that an appeal be taken and a protective appeal has been filed. This is a corrected Department Action Slip to correct an error in the Fair Market Value and in the State's testimony. (December 23, 1968)

Right of Way - Route 17

There is presented the matter of the Commissioners' award in the condemnation of property on Route 17, Section 4, Parcel 143, in the Borough of Hasbrouck Heights owned by the Humble Oil and Refining Company, a Delaware Corporation, et als.

At the hearing before the Commissioners an award of $46,000.00 was granted. Fair Market Value was registered in the amount of $41,500.00. The State's expert testified as to $41,500.00. Owners witness testified as to the value of the partial taking plus damages to the remainder was $57,850.00. There was a deposit paid into court in the amount of $31,600.00 on February 29, 1968. State was represented by Fee Attorney David H. Rothberg.

It is recommended that the award in the amount of $46,000.00 be approved and payment in the sum of $14,400.00 being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles, since the award is fair and reasonable, not excessively higher than the registered fair market value and experience with juries in Bergen County would indicate that an appeal would not achieve a more favorable result.

This is a corrected Department Action Slip to amend the amount and date of deposit. (December 23, 1968)

143 **Right of Way-Route 17**

There is presented the matter of the Commissioners' award in the condemnation of property on Route 17, Section 4, Parcel 151A, 151B, 152A, 152B, in the Borough of Hasbrouch Heights owned by Philip B. Germain; et al.

There was a deposit paid in the court in the amount of $19,050.00 on January 31, 1968.

The state was represented by Fee Attorney Avrom Gold.

Since the award exceeds the state's appraisal and testimony by $7,500.00 it is recommended that appeal be taken and a protective appeal has been filed. (December 23, 1968)

This is a special purpose public property on which there are legal questions on the evaluation approach. Despite the wide variance between the state's testimony and the award, no appeal is recommended because, additionally, a jury would be just as likely as the Commissioners to sustain an award considerably higher than the state's appraisal, due to the fact that the building was used for retarded students.

It is recommended that the award in the amount of $27,500.00 be approved and that payment in the sum of $5,300.00, being the amount over and above the deposit paid into court, be paid together with lawful interest as computed by the Bureau of Titles.

The Department has now received a sworn statement from the Treasurer of Morris Lumber and Wrecking Co., Inc. stating the word "Lumber" was omitted in error on their bid proposal and classification proposal. Right of Way - Route 24 Freeway

63 There is presented again the matter of condemnation of lands of Route 24 Freeway, Section 12, Federal-aid Project U-204-(6), River Road to Route 78. Condemnation proceedings were previously authorized for Parcels 18A & 18B in the name of Ralph J. Weiger & Eleanor Weiger, h/w on November 7, 1966. There has been no complaint filed and no court deposit made in this case.

Subsequently, the engineers determined that Parcel 18B was not required for highway construction and it has been eliminated. Parcel 18A has been appraised and the Reviewer's registered Fair Market Value determination is $3,000.

Renegotiations with the owners resulted in refusal of the State's offer of $3,000 but made no monetary demand. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $3,000.

It is recommended that condemnation proceedings previously authorized for Parcels 18A & 18B be rescinded. **(December 31, 1968)**

65 There is presented again the matter of acquisition of property on Route 37, Section 4A, Garden State Parkway to Washington Street, Parcel R124, plus landlocked remainder, Baiamonte Bros., Inc. (a N. J. Corp.). A commission action was approved by the Commissioner on June 6, 1968 granting authority to acquire Parcel R124, as well as the landlocked remainder which was subsequently designated as X124B.

Prior to the Complaint being filed in the above-entitled action, the owner acquired adjoining property to the landlocked remainder which resulted in the remainder becoming no longer landlocked. The owner then secured a court order requiring the State to amend the Complaint to the effect that the area of taking be limited to Parcel R124, and that the remainder designated as X124B shall not be acquired. The court order provides that the owner is limited in its proof as to damages so as to exclude any testimony or evidence of damages to the remainder by reason of the remainder of the subject property belonging to the defendant as being landlocked.

Authority, therefore, is requested to amend the Complaint heretofore filed and to eliminate the acquisition of Parcel X124B. **(December 31, 1968)**

Authority is, therefore, requested to acquire this property subject to the existence of the easement to the Sinclair Pipe Line Company. **(December 27, 1968)**

Appraisal Order 1965-A-803 was previously issued to Mr. Kahn to appraise Parcel 80 at a fee of $1,250. This parcel was later revised to 2R80A, R80C, and 80C which involves considerably more work than called for on the original order. The parcel revision expanded the appraisal problem where it became necessary to include the two, three story insurance office buildings and warehouse. This office was working against a target date and the appraiser was authorized to proceed with a completed appraisal, however, we inadvertently failed to process or amend the order to include the additional work.

There is submitted an order request asking for authority to pay the appraiser for this additional work on which the appraisals were delivered.

Approval is recommended. **(December 27, 1968)**

Fair market value for parcel 13A1 (our case #1) is $27,600 and for parcels 13A2 & E13B (our case #2) the sum of $25,500, and the State introduced testimony to that effect. The property owner testified to a value of $77,250 for parcel 13A1 and $33,000 for parcels 13A2 & E13B.

Complaints were filed on August 30, 1965 in both cases. On August 30, 1965 the sum of $27,600 for parcel 13A1 and $25,550 for parcels 13A2 & E13B was deposited. The money was withdrawn.

Commissioners awarded $30,000 for parcel 13A1 and $26,500 for parcels 13A2 & E13B. The awards in both cases are in my opinion well within the reasonable range of value in both instances being nominally higher than our fair market value.

Accordingly, I recommend that the protective appeals which were filed in these matters be withdrawn and that the difference between the deposits and the awards be paid together with lawful interest as computed by the Bureau of Titles. **(December 31, 1968)**

Right of Way - Route 24F

97 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 24F, Section 12, Parcel 46, owned by Carmine P. Errico.

The complaint was filed on November 14, 1967 and the deposit was made into court on the same date in the amount of $50,000. The fair market value was re-registered in the amount of $55,000.

The property owner did not appear at the hearing. The State's experts Edward McKenna and Joseph Brennan testified to a value of $52,000 and $55,000 respectively. This is an entire taking.

The Report of Commissioners dated December 10, 1968 was in the amount of $55,000 and the award was not appealed. It is recommended that the Commissioner approve the award of the commissioners. **(December 31, 1968)**

Right of Way - Route 33

98 There is presented the matter of the Commissioners' Award in the condemnation of property on Route 33, Section 4, Parcel 55 in the Township of Monroe, owned by Essex Maintenance Corporation; et al.

At the hearing before the Commissioners an award of $8,000.00 was granted. Fair Market Value was registered in the amount of $4,500.00. The owners' witness testified to $14,840.00. The State's expert testified to $4,500.00 for the partial taking of an improved parcel.

The State was represented by Fee Attorney Gary Schwartz.

Since the award exceeds the State's appraisal and testimony by $3,500.00, it is recommended that the Award be appealed and a protective appeal has been filed. **(December 31, 1968)**

Right of Way - Route 35

99 There is presented again the matter of acquisition of property on Route 35, Section 10, Project U-72-(7) from Morristown Road to Route 36, owned by Anthony L. Petters Diner, Inc.

Condemnation proceedings were previously authorized on March 31, 1965 and a deposit of $55,000.00 was made on September 27, 1966, which was the registered fair market value, entry having been made on November 4, 1964.

On September 30, 1966 the defendant-owner withdrew the deposit of $55,000.00.

A Commissioners' hearing was held on December 19, 1966 and an award was made in the sum of $85,000.00.

An appeal was taken by the State and a cross-appeal was taken by the owner's attorney, and on April 18, 1967 a jury awarded the sum of $75,000.00, which sum is $10,000.00 less than the Commissioners' award.

The defendant-owner then took an appeal to the Appellate Division of the Superior Court of New Jersey, and on June 25, 1968 the Appellate Division affirmed the decision of the trial court.

It is therefore recommended that the judgment of $75,000.00 be approved and that payment be made of the sum of $20,000.00, being the difference between the Judgment and the amount deposited into Court, together with interest at 6% per annum on the entire judgment of $75,000.00 from the date of entry, November 4, 1964 to the date of deposit, September 27, 1966, amounting to $8,531.51 and with further interest upon $20,000.00 from the date of deposit, September 27, 1966 to the date of entry of judgment, April 18, 1967, amounting to $667.39, making a total interest of $9,198.90 or a total payment of $29,198.90. **(December 31, 1968)**

100 **Right of Way - Route 37 F**

There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $2,400.00. A judgement was entered against the State in the condemnation of property owned by Valhalla Rifle and Pistol Range; et al, in the amount of $15,000.00.

At the trial before a Court with a jury the owners offered testimony in the amount of $75,000.00. The State offered testimony in the amount of $900.00. Fair Market Value was established in the amount of $900.00. A Complaint was filed on February 13, 1968. A deposit was paid in the Court in the amount of $500.00 on February 9, 1968.

The State was represented by Fee Attorney Julius Cohn.

It is recommended that the verdict in the amount of $15,000.00 be accepted and that payment in the amount of $14,500.00 being the amount over and above the deposit into Court, be paid together with lawful interest as computed by the Bureau of Titles. There is no grounds for appeal. **(December 31, 1968)**

101 **Right of Way - Route 38**

There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $103,500 in the condemnation of property on Route 38, Section 1, Parcel 169 owned by Herman J. Kleiner, widower; et al.

At the trial before the court sitting with a jury the State offered testimony in the amount of $87,000. The fair market value was established in the sum of $85,700. The owners offered testimony in the amount of $134,700. The Complaint was filed on June 15, 1965 and a Declaration of Taking and deposit in the sum of $85,700 was made on July 27, 1965. The verdict was in the sum of $115,500.

It is recommended that the verdict in the sum of $115,500 be paid with interest as computed by the Bureau of Titles. **(December 31, 1968)**

102 **Right of Way - Route 70**

There is presented the matter of the approval of a settlement of the award of commissioners of property on Route 70, Section 1, Parcel 19 in the Township of Cherry Hill owned by Camden Motor Truck Company, et als.

This matter is now on appeal from an award by the commissioners in the amount of $56,000.00. Fair Market Value was re-registered in the amount of $43,000.00. The State's appraisal witness testified in the amount of $45,398.00 for the partial taking and damages to the remainder of an improved parcel. The owner's witness testified to $65,000.00. There was a deposit paid into Court in the amount of $12,000.00 on April 7, 1967 and another deposit in the amount of $33,300.00 on November 21, 1967. The State made a physical entry on the subject property on July 20, 1964. The Defendant is willing to accept the sum of $60,000.00 to include all claims for the partial taking, damages to the remainder, and all interest accrued from the date of entry by the State on July 20, 1964 to date of payment of settlement.

Assuming the State were successful in the appeal and secured a verdict in the exact amount of its Fair Market Value, namely, $45,398.00 (a condition which is not likely) possession by the State in this case having been prior to the Declaration of Taking and deposit statute, interest on the State's Fair Market Value as computed by our Acquisition Bureau would now amount to approximately $8,650.00. When added to the Fair Market Value, this totals $54,048.00. Since this case is more than two years old, consideration must be given to court appeal costs which could easily run to $2,000.00 with pre-trial, witness fees, etcetera, resulting in a total of $56,048.00.

The offer of settlement in the amount of $60,000.00 (if inclusive of all claims against the State) is a substantial reduction of the award and interest which the owner has already secured from the Court. From a legal point of view, it is not reasonable to expect to secure a final trial verdict plus the interest obligation at a figure less than this. It is therefore recommended as in the public interest that the appeal now pending be withdrawn and that the matter be settled for $60,000.00 inclusive of all claims against the State plus accrued interest and that the deposits made with the Clerk of the Superior Court totaling $45,300.00 together with accrued interest thereon be withdrawn and that authorization be granted to have the Right of Way Division secure agreements in a net amount of $60,000.00 to be paid in full settlement of all claims including interest to the date of payment to be made to the Defendant. **(December 31, 1968)**

Right of Way - Route 78

103 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 78, Section 4C, Parcel R83A, owned by Felix Layat.

Jury The complaint was filed on October 8, 1965 and the deposit was made into court on or about December 20, 1965 in the amount of $22,000. The fair market value was in the amount of $38,900 and re-registered on May 6, 1968. The Report of Commissioners dated June 5, 1968 was in the amount of $54,000.

The property owner was represented by Goldberg and Carlin who relied upon Alvin Van Horn as his expert. Mr. Van Horn stated that the premises had a before value of $103,000 and an after value of $38,500 leaving a value for the taking including damages to the remainder in the amount of $64,500. Mr. Van Horn relied upon comparable sales in arriving at his opinion of value.

The State relied upon William T. Ard who stated that the premises had a before value of $71,200 and an after value of $32,300 leaving a value for the taking including damages to the remainder in the amount of $38,900. Mr. Ard relied upon comparable sales in arriving at his opinion of value.

Interest from the date of possession October 14, 1964 to the date of deposit into court amounts to $3,850. Interest on the excess of the award over the deposit from the date of the Judgment amounts to $5,940 or a total interest of $9,790.

It is recommended that the Commissioner approve the Judgment in the amount of $55,000 plus interest of $9,790 or a total of $64,790 less the deposit of $22,000 or a total of $42,790 together with post judgment interest as computed by the Bureau of Titles.
(December 31, 1968)

Right of Way - Route 78

104 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 78, Section 4C, Parcels 83B & R83C, owned by Felix Layat.

The complaint was filed on October 8, 1965 and the deposit was made into court on or about December 20, 1965 in the amount of $1,000. The matter was re-registered on or about May 29, 1968 in the amount of $4,800. The Report of Commissioners dated June 5, 1968 was in the amount of $6,000. This is a partial taking.

The property owner was represented by Goldberg and Carlin, Esqs., who relied upon Alvin Van Horn. He used comparable sales in arriving at his opinion of value. He stated that the premises had a before value of $1,8000 and an after value of $10,000 leaving a value of $8,000 for the taking including damages to the remainder.

The State relied upon William T. Ard who stated that the premises had a before value of $6,500 and an after value of $1,700 leaving a value for the taking including damages to the remainder in the amount of $4,800.

The jury verdict was in the amount of $6,500 plus interest from the date of possession, October 16, 1964 on the entire award and

and interest on the excess over the deposit from December 20, 1965 to December 20, 1968.

It is recommended that the Commissioner approve the Judgment in the amount of $6,945 which includes pre Judgment interest together with interest on the Judgment as computed by the Bureau of Titles. **(December 31, 1968)**

Right of Way - Route 80

105 There is presented again the matter of the appeal by the State from an award of Commissioners in the amount of $22,700.00. A Judgement was entered against the State in the condemnation of property owned by Horatio Rizzo; et al, in the amount of $17,500.00.

At the trial before a Court with a jury the owners offered testimony in the amount of $31,000.00. The State offered testimony in the amount of $11,300.00. The Fair Market Value was established in the amount of $11,300.00. The Complaint was filed on March 14, 1966. A deposit was made in the amount of $11,300.00 on October 11, 1967.

The State was represented by Fee Attorney John Hila.

It is recommended that the verdict in the amount of $17,500.00 be accepted and that payment in the sum of $6,200.00, being the amount over and above the deposit into Court, be paid together with lawful interest as computed by the Bureau of Titles. There are no grounds for an appeal. **(December 31, 1968)**

Right of Way - Route U.S. 202 and 69

106 There is presented the matter of the Commissioners' Award in the condemnation of property on Route U.S. 202 and 69, Section 2, Parcel R36, in the Township of Raritan, owned by Stephen Sturges; et al.

At the hearing before the Commissioners, an award of $16,500.00 was granted. Fair Market Value was registered in the amount of $5,700.00. The owners' witness testified to an amount of $30,000.00. There was a deposit made in the Court in the amount of $3,900.00 on October 30, 1967.

The State was represented by Fee Attorney Francis Sutton.

Since the award of the Commissioners exceeds the State's appraisal and testimony by $10,800.00, it is recommended that an appeal be taken and a protective appeal has been filed. **(December 31, 1968)**

Right of Way - Route 280

107 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 280, Section 5, Parcels 192A & 192B, owned by Shaldine Realty Corporation, a corporation of New Jersey.

The complaint was filed on February 17, 1967 and the deposit was made into court on the same date in the amount of $44,100. The Report of Commissioners dated June 3, 1968 was in the amount of $51,510 and the award was appealed by the State and cross appealed by the property owner.

The property owner was represented by Saul Wolfe who relied upon Eugene Kleinwaks as his expert. This is an entire taking. Mr. Kleinwaks stated that the premises had a value of $112,000.

The State relied upon Joseph Brennan and Sanford Krasner who stated that the premises had a value of $43,300 and $44,000 respectively.

It is recommended that the Commissioner approve the Judgment in the amount of $55,000 plus interest on the excess of the verdict over the deposit which interest amounted to $1,199 or a total Judgment of $56,199 less the deposit of $44,100 or a net of $12,099 together with post Judgment interest as computed by the Bureau of Titles.

Claims - Settlement

8 The Department of Transportation had a claim against Ralph N. Cifelli in the amount of $430.18 arising out of an accident occurring on December 11, 1965 on Route 10, Denville, New Jersey, involving a vehicle owned and operated by Ralph N. Cifelli and a vehicle owned by the New Jersey Department of Transportation, operated by Andrew Perrone. As the result of said accident the Department vehicle was damaged and had to be repaired at a cost of $430.18.

All efforts to collect this claim through negotiations were unsuccessful and the Claims Bureau therefore instituted a suit against Mr. Cifelli. At a conference held in the Judge's chambers on the day of trial, the insurance carrier for the defendant offered the sum of $215.00 in full settlement of the State's claim which offer was rejected by our attorney. Subsequent negotiations resulted in the insurance company increasing their offer by gradual steps until it reached $330.00. This figure was accepted rather than risk an adverse decision in the event of an actual trial. Consideration was also given to the fact that to proceed with the trial in order to recover a full judgment would cost the State a certain amount of money to produce the necessary witnesses.

We feel the offer under the circumstances is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that it receive favorable consideration and be approved. (January 13, 1969)

Claims - Settlement

5 This claim arises out of a vehicular accident which occurred on Route 130, South Brunswick Township, Middlesex County, and resulted in injuries to John Gallino and damage to a tractor and gang mowers in the amount of $587.16. As the result of said injuries, the State of New Jersey was required to expend the sum of $1,540.71 for medical and workmen's compensation payments on behalf of Mr. Gallino.

The police report indicates that the tractor was travelling north on Route 130, one half on the shoulder and one half in the slow lane when it was hit in the rear by the Collina vehicle. No charges were preferred by the police officer against either driver. Subsequent investigation by the Claims Bureau disclosed that Mr. Collina was twenty-one years of age, without funds, uninsured and that the attorney representing the Department of Transportation employee did not bring an action against Mr. Collina.

In accordance with the Division of Motor Vehicles Security Responsibility regulations, Mr. Collina was required to make a security deposit in the amount of $840.00, representing $590.00 for damage to the Department of Transportation tractor and $250.00 for medical expenditures on behalf of Mr. Gallino. He has authorized disbursement of the above amount to the State of New Jersey in settlement of this claim.

Giving due consideration to Mr. Collina's financial status and the difficulty which has been experienced by the Claims Bureau in collecting this type of claim in the past, it is our opinion that the State would be justified in accepting the above offer rather than attempting to collect the full amount by installments, or a law suit which could result in a 'No Cause For Action' or a judgment that might be uncollectable.

It is my recommendation, therefore, that this offer of settlement receive favorable consideration, in accordance with Mr. Levine's memorandum dated January 7, 1969, attached hereto, and the recommendation of the New Jersey Department of Transportation Deputy Attorney General. **(January 20, 1969)**

39 **Right of Way - Route 78**

There is presented again the matter of condemnation of property on Route 78, Section 3D, Project I-78-3-(4), Lamington River to Route 287. Condemnation proceedings were previously authorized for Parcels 5A and 5B on July 16, 1965 for Reynolds I. Nowell and wife at which time the owners were demanding $11,000.00 for these parcels. The Fair Market Value for these parcels was $5,260.00

Two other condemnation proceedings were authorized for the same property owners for Parcels L5C and L5D, Project LSI-78-3-(3), on November 20, 1967 respectively, at which time the Fair Market Value for Parcel L5C was $8,650.00. The Fair Market Value for Parcel L5D was $125.00. The owners did not state a demand for either parcel.

Subsequently, on May 17, 1968, there was a revision involving Parcel L5C. It is now Parcel LR5C. For the purpose of continuity, Parcels 5A, 5B, LR5C and L5D were consolidated and re-appraised, and a Fair Market Value of $8,665.00 was established. Negotiations were continued on this basis for Parcels 5A, 5B, LR5C and L5D. The owners are now demanding $20,000.00 which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels in fee simple, subject to any public utilities existing in the premises; and that the previous actions of July 16, 1965 covering Parcels 5A and 5B and November 20, 1967 for Parcels L5C and L5D be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and descriptions of Parcels 5A, 5B, LR5C and L5D in the place and instead of those previously filed.

Inasmuch as the sum of $5,260. was previously deposited in the Superior Court for Parcels 5A and 5B; $8,650. for Parcel L5C; $125. for Parcel L5D, authority is now requested to withdraw the sum of $5,370. which represents the difference between the old and new Fair Market Value. **(January 20, 1969)**

Legal Items

Right of Way - Route 4

At the hearing before commissioners, the owner presented testimony in the amount of $45,000. The State presented testimony in the amount of $5,400. The sum of $4,900 was deposited with the Court on June 20, 1968. Commissioners rendered a report in the sum of $31,400.

An appeal has been taken. It is recommended that the taking of the appeal be approved. (January 20, 1969)

Right of Way - Route 21F

131 There is presented the matter of the approval of a settlement prior to a hearing by the Commissioners of property on Route 21F, Section 4, Parcel 256 in the City of Passaic owned by Albin Rowinski, et als.

Fair Market Value was registered in the amount of $67,000.00 for an entire taking. A deposit in the amount of $62,500.00 was made on October 27, 1966. Prior to the commencement of the hearing, owners attorney indicated that his client would accept the sum of $68,000.00 provided that the State would not take possession until June 30, 1969.

In view of the fact that the premises are improved with a two story concrete building used as a funeral home and also since there exists the likelihood that the award of the Commissioners might exceed the amount of the State's Fair Market Value by more than $1,000.00, and, for these reasons and with the approval of the Right of Way Division, the offer of settlement, being fair and reasonable and in the public interest, it is recommended that the settlement in the amount of $68,000.00 be approved and that the deposit made with the Clerk of the Superior Court in the amount of $62,500.00 together with accrued interest thereon be withdrawn and that authorization be granted to have the Right of Way Division secure agreements in consideration of the payment to the Defendants of the said sum of $68,000.00. **(January 20, 1969)**

132 **Right of Way - Route 24**

There is presented here the matter of the appeal by the State from an award of commissioners in the sum of $1,600 in the condemnation of property on Route 24, Section 13, Parcel E37 owned by Joseph Merrill.

At the hearing the owners appeared pro se and offered testimony for cost of cure in the amount of $3,100. The State offered testimony in the sum of $600. Subsequent to the hearing an addendum was added to the original appraisal in the sum of $1,700 for cost of cure for a total of $2,300. These facts were brought to the attention of Angelo A. Alfano. It was the recommendation of Deputy Attorney General John F. Cannon and Mr. Alfano concurred that the appeal should be dismissed and the original award in the sum of $1,600 be paid. The Complaint was filed on August 2, 1966 and a Declaration of Taking and deposit in the sum of $300 was made on the same date.

It is recommended that the commission award in the sum of $1,600 should be paid less credit of $300 previously deposited and with interest from August 2, 1966 on the sum of $1,300 to the date of payment. **(January 20, 1969)**

133 **Right of Way - Route 33**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 33, Section 4, Parcel 41A, in the Township of Monroe, owned by Salvatore Profaci, Jr.; et al.

At the hearing before the Commissioners an award of $3,750.00 was granted. Fair Market Value was registered in the amount of $2,675.00. The owner's witness testified to $4,440.00. The State's expert testified to $2,675.00 for the partial taking and slope easement of an improved parcel. There was a deposit paid in the Court in the amount of $2,550.00 on May 13, 1968.

The State was represented by Fee Attorney Gary Schwartz.

The Commissioners apparently gave slightly more weight to the testimony of the defendants expert than to the State's staff appraiser in arriving at this determination; and since the award is not excessive and also because experience with juries in Middlesex County, on an appeal, would have little likelihood of reducing this award, it is recommended that the award in the amount of $3,750.00 be approved and that payment in the sum of $1,200.00, being the amount over and above the deposit paid in the Court, be paid together with lawful interest as computed by the Bureau of Titles. **(January 20, 1969)**

134 **Right of Way - Route 33**

There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $7,000.00. A judgement was entered against the State in the condemnation of property owned by Isidore Shipper; et al, in the amount of $4,000.00.

At the trial before a Court with a jury the owners offered testimony in the amount of $9,700.00. The State offered testimony in the amount of $1,000.00. The Fair Market Value was established in the amount of $1,000.00. The Complaint was filed on January 30, 1967. There was a deposit made on the same date in the amount of $800.00.

The State was represented by Fee Attorney Gary Schwartz.

It is recommended that the verdict in the amount of $4,000.00 be accepted and that payment in the sum of $3,200.00, being the amount over and above the deposit into Court, be paid together with lawful interest as computed by the Bureau of Titles. There are no grounds for an appeal. **(January 20, 1969)**

135 **Right of Way - Route 35**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 35, Section 8, Parcel 171, in the Township of Middleton, owned by Joseph Broda; et al.

The State's expert testified to $14,800.00 for the partial taking and slope easement of an improved parcel. There was a deposit paid in the Court in the amount of $14,500.00 on December 4, 1967.

The State was represented by Fee Attorney David Rothberg.

Since the award exceeds the State's appraisal and testimony by $25,200.00, it is recommended that an appeal be taken and a protective appeal has been filed. **(January 20, 1969)**

136 **Right of Way - Route 35 Freeway**

There is presented here the matter of the payment of taxed costs on a judgment secured in the condemnation of property owned by Monroe Phillips; et al, Route 35 Freeway, Section 2, Parcel 83, in the Township of Ocean, Monmouth County.

Approval is recommended for the payment of the taxed costs as appears in the statement of the Superior Court in the amount of $60. **(January 20, 1969)**

The State's expert testified to an amount of $2,000.00 for the partial taking and damages to remaining lands of an improved parcel. There was a deposit made in the Court in the amount of $2,000.00 on November 10, 1967.

The State was represented by Fee Attorney William Hanlon.

Since the award exceeds the State's appraisal and testimony by $5,400.00 it is recommended that an appeal be taken and a protective appeal has been filed. **(January 20, 1969)**

138 **Right of Way - Route 36**

It is recommended that an appeal be taken from the award of commissioners in the amount of $18,500.00. **(January 20, 1969)**

139 **Right of Way - Route 37**

There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $18,000.00. A judgement was entered against the State in the condemnation of property on Route 37, Section 4A, Parcel 85, owned by Joseph N. Applegate; et al.

At the trial before the Court and a jury the owner offered testimony in the amount of $25,000.00 and the State offered testimony in the amount of $2,000.00 for the partial taking. Fair Market Value was established in the amount of $2,000.00; the complaint was filed in November 10, 1967 and a deposit made on same date in the amount of $1,850.00. The verdict was in the amount of $25,000.00.

The State was represented by Fee Attorney John Hila.

Mr. Hila's contention that there was legal error in the trial is concurred in by Deputy Attorney General Joseph Lipkin and Deputy Attorney General Edward Schwartz. It is, therefore, recommended that the jury verdict be appealed and a Notice of Appeal, in the Appellate Division, has been filed, and the matter turned over to the Attorney General's Office.
(January 20, 1969)

140 **Right of Way - Route 37**

At this uncontested hearing before the commissioners the State offered testimony in the amount of $1,400.00. Fair Market Value was established in the amount of $1,400.00. Commissioners awarded the sum of $1,400.00. There was a deposit of $1,200.00 made into Court on February 29, 1968.

It is recommended that the award of $1,400.00 less the amount of $1,200.00 deposited into Court on February 29, 1968 be paid. **(January 20, 1969)**

141 **Right of Way - Route 72**

There is presented the matter of the Commissioners' Award in condemnation of property on Route 72, Section 6, Parcel 9, in the Township of Stafford, owned by Joseph Lorber; et al.

The State was represented by Fee Attorney Gary Schwartz.

Since the award exceeds the State's appraisal and testimony by $5,400.00, it is recommended that an appeal be taken and a protective appeal has been filed. (January 20, 1969)

142 **Right of Way - Route 78**

There is again presented the matter of the Commissioners' Award in the condemnation of property on Route 78, Section 5G, Parcel 789, in the City of Newark, owned by Ward's Realty Co.; et al.

This is a corrected Department Action Slip, correcting an error in Department Action Slip dated December 12, 1968, and which latter is herewith rescinded. (January 20, 1969)

There is presented herein the matter of the award of commissioners in the condemnation of property on Route 80, Section 5K, Parcels UE3R188C, UER190 and UER191A, in the Township of South Hackensack, owned by Lillian F. Morrissey, a/k/a Lillian F. Bradley, widow.

At the commissioners' hearing, the matter of settlement was discussed with the owner's attorney and the court coordinator. The owner's attorney was prepared to submit testimony in the amount of $35,500 and to make a claim of $4,500 for loss of rails. The Right of Way Division approved settlement in an amount up to $27,000 plus interest. The State entered the property in June, 1963. There was no deposit paid into court. The amount of the award is less than the total of the Fair Market Value plus interest from the given date of entry.

It is recommended that the award in the amount of $33,750 inclusive of all claims for interest be approved and that authority be given to pay said amount. **(January 20, 1969)**

Right of Way - Route 80

The commissioners' award as compared with the Fair Market Value plus interest indicates that acceptance of the award would be in the best interest of the State.

It is recommended that the award in the amount of $3,900 inclusive of any interest claim be approved and that authority be given to pay said amount. **(January 20, 1969)**

Construction Items

Agreement
Tri County Asphalt Corporation

6 Approval and execution of the attached agreement between the Tri County Asphalt Corporation and the State of New Jersey for the construction work to be performed in the reconstruction of a temporary bridge carrying Route 80 eastbound traffic in the vicinity of Denville in the lump-sum amount of $29,364.97 is hereby recommended. Tri County Asphalt Corporation gave the lowest quotation of three qualified contractors contacted. The existing bridge was constructed as part of the contract work for Route 80, Section 2J and in accordance with the design that was geared to produce a structure with a life of five years. The present structure has been in service for eight years, and it will require another two or three years before permanent replacement facilities are in use. The average 20,000 vehicles per day using the eastbound lane are now diverted into a section of Route 46 which is not adequate to handle this volume making it imperative to reconstruct the temporary structure as soon as possible.

Route 17, Section 4B

7 On July 11, 1967 a Commission Action was approved to provide a detour, using roads under the jurisdiction of the Department of Transportation and the County of Bergen, in order to handle traffic traveling on Paterson Plank Road between 16th St. and Route 17. This detour was to be in effect during the period of construction of the Paterson Plank Road bridge over Route 17 to be built under Construction Contract 17, Section 4B. The Commission Action provided a period of 12 months for this detour and estimated the starting date as September 1, 1967. Subsequent delays in awarding this construction contract has made it impossible to meet the estimated date shown. This Commission Action is therefore amended to provide for the same detour for a period of about 12 months beginning January 16, 1969.

To improve local traffic flow a second Commission Action will be executed to provide a detour on town roads immediately adjacent to Paterson Plank Road.

There is presented the matter of the award of commissioners of the condemnation of property located on Route 78, Section 5G, Parcel 765, City of Newark, Essex County, owned by Nathan R. Schnitzer; et al.

Fair market value was in the amount of $19,700 and the State introduced testimony to that effect. No one from the property owner's side appeared and therefore the commissioners found in the amount of $19,700 being the exact amount of our fair market value.

Accordingly, I recommend that this award be paid as soon as possible. **(January 28, 1969)**

Right of Way - Route 35

76 There is presented again the matter of acquisition of property on Route 35 (1953), Section 8, From Front Street To Leonardville Road. Condemnation proceedings were previously authorized for Parcel 57A on February 20, 1967 at which time the State's Registered Fair Market Value of $30,000. was offered to and refused by the owner whose demand of $45,000. was considered excessive.

An appraisal updating resulted in the Fair Market Value being re-registered in the amount of $36,250. for Parcel 57A plus $250. for the two remnants and it was subsequently determined to be in the best interest of the public to purchase the two remnants. The parcel designation is now 57A plus two remnants in the name of Joseph G. McCue and Helen M. h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel plus the two remnants in fee simple, subject to any public utilities existing in the premises and that the Commission Action authorizing condemnation proceedings for Parcel 57A be rescinded. The State's Registered Fair Market Value of $36,250. for Parcel 57A plus $250. for the two remnants was offered to and refused by the owner whose demand of $50,000. is considered excessive.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 57A plus two remnants in the place and instead of those previously filed. Authority is requested to deposit an additional $6,500. with the Superior Court which when combined with the $30,000. already on deposit will make a total on deposit of $36,500. (January 31, 1969)

77 There is presented again the matter of acquisition of property on Route 35 (1953), Section 8, From Front Street To Leonardville Road. Condemnation proceedings were previously authorized for Parcels 97A and 97B on December 5, 1966 at which time the State's Registered Fair Market Value of $2,700. was offered to the owner who was unable to complete negotiations due to a possible conflict of interest.

An appraisal updating resulted in the Fair Market Value being re-registered in the amount of $2,900. and on April 24, 1968 and May 7, 1968 a Commission Hearing was held at which time an award in the amount of $4,000. was rendered which was appealed by the State. Subsequently, it was determined by our Engineering Division that the existing Right of Way Line was plotted incorrectly and a map revision was required. The Parcel designations are now R97A and R97B in the name of William A. Bedford and Mary R. Bedford, h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels in fee simple, subject to any public utilities existing in the premises and that the Commission Action authorizing condemnation proceedings previously for Parcels 97A and 97B on December 5, 1966 be rescinded. The State's Registered Fair Market Value of $3,800. was offered to and refused by the owner who is unable to complete negotiations due to a possible conflict of interest.

It is further recommended that the complaint on file be ammended to substitute the map and description for Parcels R97A and R97B in the place and instead of those previously filed. Authority is requested to deposit an additional $1,100. with the Superior Court which when combined with the $2,700. already on deposit will make a total deposit of $3,800. (February 5, 1969)

Edwin R. Berger and Charlotte E. Berger, his wife, are now the owners of the land affected by this slope easement and have requested that same be released. The Engineering Division has advised that the slope rights are no longer required.

It is recommended that the deed releasing the slope easement be executed by the Commissioner and authority granted to deliver the Deed of Release to Edwin R. Berger and Charlotte E. Berger, his wife.

The Commissioner of Transportation does hereby determine that the slope easement is no longer required for the use of the State of New Jersey in the improvement, betterment, reconstruction or maintenance of any state highway. (February 5, 1969)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2,000.00. (January 31, 1969)

This parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $3,500 which was offered to and refused by the owners, who demanded $50,000, which is considered excessive.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $3,500. **(January 30, 1969)**

Right of Way - Route U.S. 46

81 There is presented again the matter of condemnation on Route U.S. 46 (1953) Section 5, Federal-aid Project LSF-21-(1), Musconetcong River to Flanders Road; Leonard Seiden & Iris Seiden, h/w. Condemnation proceedings were previously authorized for Parcel L113 on September 3, 1968. There has been no court deposit made on this case.

Subsequently, the parcel was revised by the Engineers and redesignated as Parcels L113A & 113B. These parcels have been appraised and the Reviewer's registered Fair Market Value Determination is $14,400, which was offered to and refused by the owners who demanded $39,000, which is considered excessive.

It is also recommended that condemnation proceedings previously authorized for Parcel L113 be rescinded and that condemnation proceedings be authorized for the acquisition of Parcels L113A and 113B in fee simple, subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $14,400. **(January 31, 1969)**

Right of Way - Route 76

82 There is presented again the matter of condemnation of property on Route 76 (1953), Section 1, Federal-aid Project I-76-8-(12), From Benjamin Franklin Bridge to Kaighn Avenue, Parcel 448, Jerry D. Brockington and wife. An agreement covering the conveyance of the above-captioned parcel was previously approved by the Commissioner on January 16, 1967 for a consideration of $6,900 including a down payment of $1,400, which was subsequently made to the owners.

The balance of $5,500 was scheduled to be paid at the closing, however, the attorney for the owner advised the State that amounts due on the various liens against this property exceeded the balance due his client. Repeated attempts by the owners' attorney to bring this matter to a final closing were futile. In view of the fact that a closing cannot be effected, it is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel and that authority be granted to rescind the previous commission action granting approval for the purchase agreement in the sum of $6,900.

Should prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $6,900.

Authority is further requested to file suit against the owners, Jerry D. Brockington and Mary, h/w, for the recovery of the down payment in the sum of $1400, and the amount the State is compelled to pay under condemnation proceedings, when that amount is determined, by reason of their failure to convey the property to the State in accordance with the terms of the agreement.

Authority is also requested to dispose of the three-story frame dwelling to the road contractor by public auction or by sealed bids. **(January 31, 1969)**

83 **Right of Way - Route 78**

There is presented again the matter of condemnation of property on Route 78, Section 3D, Project I-78-3-(4), Lamington River to Route 287. Condemnation proceedings were previously authorized for Parcels 6A, 6B, 6C and 6D on November 9, 1965, for the Somerset Trust Company as Administrators of the Estate of William H. Milnor, Jr., at which time the owner would not state a demand. The Fair Market Value for these parcels being $16,200 was deposited into Court.

Subsequently, the engineer increased the takings to include landscape parcels L6E and L6F. L6F was later revised to Parcel LR6F.

For purposes of continuity, the Parcels were combined and re-appraised resulting in the Fair Market Value being registered in the sum of $71,200.

Negotiations were conducted with Somerset Trust Company on this basis. The State's offer of $71,200 was not accepted and no demand was made. The Administrators requested that condemnation proceedings be instituted to facilitate disposal of the estate.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 6A, 6B, 6C, 6D, L6E and LR6F, in fee simple, subject to any public utilities existing in the premises, and that the previous action of November 9, 1965 covering Parcels 6A, 6B, 6C, and 6D be rescinded.

It is further recommended that the complaint on file be amended to substitute the map and descriptions of Parcels 6A, 6B, 6C, 6D, L6E and LR6F in the place and instead of those previously filed.

Inasmuch as the sum of $16,200 was previously deposited in the Superior Court for Parcels 6A, 6B, 6C and 6D, authority is now requested to deposit the additional sum of $55,000., which represents the difference between the old and new Fair Market Value. (January 30, 1969)

Right of Way - Route 17

There is presented the matter of the award of commissioners of the condemnation of property located on Route 17, Section 4, Parcel R32, Borough of East Rutherford, owned by Tremarco Corporation, a corporation of Delaware; et al.

Fair market value was registered in the sum of $92,000 and was re-registered on November 15, 1968 in the sum of $100,000 and the State introduced testimony to that effect. The property owner testified to a value of $130,500.

Complaint was filed on June 24, 1968. There was a deposit into court on June 24, 1968 in the sum of $92,000.

The commissioners' award was in the sum of $122,500 which sum is considered excessive.

It is to be noted that the trial attorney calls attention to the weakness of the State's Fair Market Value Reviewer as a witness particularly as compared with that of Mr. Morten Spies who testified for the owner.

It is, therefore, recommended that the protective appeal already filed in this matter be approved.

It is further recommended that if the State is to have a reasonable opportunity for success on appeal, permission be given to use a fee appraiser as a witness. (January 31, 1969)

111 **Right of Way - Route 17**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 17, Section 4, Parcel 145, in the Borough of Hasbrouck Heights, owned by Chicksam Realty; et al.

At the hearing before the Commissioners, an award of $14,650.00 was granted. Fair Market Value was registered in the amount of $14,650.00. The owners witness testified to $84,000.00. The State's expert testified to $14,650.00 for the partial taking and slope easement of an improved parcel. There was a deposit paid in the Court in the amount of $7,750.00 on January 24, 1968.

The State was represented by Fee Attorney Avrom Gold.

It is recommended that the award in the amount of $14,650.00 be approved and that payment in the sum of $6,800.00, being the amount over and above the deposit paid in the Court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended as the award is fair and reasonable; not in excess of the State's registered Fair Market Value and payment is recommended as in the public interest (January 30, 1969)

112 **Right of Way - Route 24F**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 24F, Section 12, Parcel 161B, in the Township of Springfield, owned by Jerome Donovan; et al.

At the hearing before the Commissioners an award of $32,500.00 was granted. Fair Market Value was registered in the amount of $27,000.00. The owners' witness testified to $40,000.00. The State expert testified to $27,000.00 for the entire taking of an improved parcel. There was a deposit paid in the Court in the amount of $18,000.00 on July 13, 1966.

The State was represented by Fee Attorney David Rothberg.

Since the award exceeds the State's appraisal and testimony by $5,500.00 it is recommended that an appeal be taken and a protective appeal has been filed. (January 30, 1969)

113 **Right of Way - Route 35**

There is presented here the matter of the commission award in the condemnation of property on Route 35, Section 9, Parcel 2R86A3 owned by Robert C. Baker.

Fair market value is registered in the amount of $24,000.00. The State's expert at the hearing before the commissioners testified to a value of $24,000.00. The property owner's expert at the hearing testified to a value of $55,000.00. A deposit of $21,000.00 was made on June 7, 1967. The commissioners award is in the amount of $34,000.00.

The award of commissioners is considered excessive and an appeal has been taken. (January 30, 1969)

114 **Right of Way - Route 35**

There is presented again the matter of acquisition of property on Route 35, Section 10, Project U-72-(7) from Morristown Road to Route 36, owned by Anthony L. Petters Diner, Inc.

Condemnation proceedings were previously authorized on March 31, 1965 and a deposit of $55,000.00 was made on September 27, 1966, which was the registered fair market value, entry having been made on November 4, 1964.

On September 30, 1966 the defendant-owner withdrew the deposit of $55,000.00.

A Commissioners' hearing was held on December 19, 1966 and an award was made in the sum of $85,000.00.

An appeal was taken by the State and a cross-appeal was taken by the owner's attorney, and on April 18, 1967 a jury awarded the sum of $75,000.00, which sum is $10,000.00 less than the Commissioners' award.

The defendant-owner then took an appeal to the Appellate Division of the Superior Court of New Jersey, and on June 25, 1968 the Appellate Division affirmed the decision of the trial court.

It is therefore recommended that the judgment of $75,000.00 be approved and that payment be made of the sum of $20,000.00, being the difference between the Judgment and the amount deposited into Court, together with interest at 6% per annum on the entire judgment of $75,000.00 from the date of entry, November 4, 1964 to the date of deposit, September 27, 1966, amounting to $8,531.51 and with further interest upon $20,000.00 from the date of deposit, September 27, 1966 to the date of entry of judgment, April 18, 1967, amounting to $667.39, making a total interest of $9,198.90 or a total payment of $29,198.90.

It is further recommended that interest be paid at 6% from April 18, 1967, the date of the Judgment, to the date of payment.

This action will rescind the commission action approved by the Commissioner on December 31, 1968. (January 30, 1969)

115 **Right of Way - Route 35**

There is presented here the matter of the commission award in the condemnation of property on Route 35, Section 10, Parcel 65A & R65B owned by James R. Burlew.

Fair market value is registered in the amount of $14,300.00. The State's expert at the hearing before the commissioners testified to a value of $14,300.00. The property owner's expert at the hearing testified to a value of $102,617.00. A deposit of $12,050.00 was made on June 30, 1966. The commissioners award is in the amount of $29,300.00.

The award of commissioners is considered excessive and an appeal has been taken. Approval of the appeal is recommended. (January 31, 1969)

116 ✓ Right of Way - Route 55F

There is presented the matter of the Commissioners' award in the condemnation of property on Route 55F, Section 6, Parcel 15B, in the City of Millville, owned by George McCloskey; et al.

At the hearing before the Commissioners, an award of $21,300.00 was granted. Fair Market Value was registered in the amount of $15,900.00. The owner's witness testified to $22,600.00. The State's expert testified to $16,245.00 for the partial taking and damages of an improved parcel. There was a deposit paid in the Court in the amount of $15,900.00 on October 7, 1966.

The State was represented by Fee Attorney Steven Z. Kleiner.

Since the award exceeds the State's appraisal and testimony by $5,055.00, it is recommended that an appeal be taken and a protective appeal has been filed. (January 30, 1969)

117 Right of Way - Route 287

There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 287, Section 9, Parcel R11A, Township of Harding, owned by Gracie W. Long; et al.

At the commission hearing, the commissioners' award was in the amount of $24,500. The State appealed.

At the jury trial, the owners offered testimony in the sum of $32,385 and the State offered testimony in the sum of $16,300, the fair market value. Date of entry in this case was July 7, 1967. There was a deposit made into court on September 12, 1967 in the amount of $10,000 and another deposit on July 30, 1968 in the amount of $6,300.

The Judgment is in the amount of $21,886.88 which is the jury verdict of $21,000 plus interest of $886.88.

It is herewith recommended that the Commissioner approve the Judgment in the amount of $21,886.88 and that payment be made in the sum of $5,586.88 being the difference between the amount of the deposit and the amount of the verdict, together with interest as computed by the Bureau of Titles. Condemnation proceedings were previously authorized on Parcel 37, Elsie Gradl, as Executrix of the Last Will and Testament of Frank Gradl, deceased, on September 16, 1963, and the State's fair market value of $880, was deposited in the Superior Court on July 28, 1967.

Subsequently, the Legal Division requested that an additional appraisal be secured for court testimony and the value date was brought up to the conplaint date. This resulted in the fair market value being re-registered in the sum of $3,100, which was offered to and accepted by the owners who executed an option in that amount.

Before the case was processed to the Commissioner for approval, it was noted that a septic system not in the taking area had been included in damages as a cost-to-cure item in the sum of $600., and accordingly, the fair market value, to reflect this change, was re-registered at a lower amount of $2,500.

The parcel having been appraised and the re-registered fair market value being $2,500., the variance not being substantial, it is therefore recommended that the agreement for Parcel 37 in the sum of $3100. be approved as being reasonable and in the best interest of the State.

It is further recommended that condemnation proceedings previously authorized be discontinued and that authority be granted to withdraw the deposit heretofore made in the Superior Court under the Declaration of Taking. (February 12, 1969)

Right of Way - Route 440

115 There is presented again the matter of acquisition of property on Route 440 (1953), Section 2, Parcel 9, Raymond Manzo and Rose, h/w. An agreement was approved by the Commissioner on April 19, 1967 and condemnation proceedings previously authorized were discontinued.

Inadvertently, authority was not requested to withdraw the sum of $3,300 which had previously been deposited with the Superior Court. Authority is therefore requested to withdraw from the Superior Court the sum of $3,300 in order to make payment to the owner. (February 12, 1969)

Right of Way - Route 440 Freeway

116 There is presented again the matter of condemnation of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35, Parcel 191A, B, C, D, E and 192, Sugarbush Corporation (A New Jersey Corporation). Condemnation proceedings were previously authorized by the Commissioner on October 9, 1967 at which time the State's fair market value determination of $102,700 was offered to and refused by the owner, whose demand of $912,000 was considered excessive. The sum of $102,700 was subsequently deposited in the Superior Court.

Subsequently, up-dated appraisals were received to the date of the filing of the Complaint on December 26, 1967 which has resulted in the State's fair market value determination being raised to $454,400, which sum was also offered to and refused by the owner.

Authority is, therefore, requested to deposit the additional sum of $351,700 in the Superior Court, making the total on deposit the current fair market value of $454,400. (February 17, 1969)

Legal Items

Right of Way - Route 17

132 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 17, Section 4, Parcel 92A, Borough of Carlstadt, owned by Alphonse Buffalino; et al.

At the commission hearing, the commissioners' award was in the amount of $200,000. The State appealed.

At the jury trial, the owners offered testimony in the sum of $206,000 and the State offered testimony in the sum of $122,400. The date of entry in this case was September 12, 1967. There was a deposit made into court on June 21, 1967 in the amount of $122,500, which sum was withdrawn.

The Judgment is in the amount of $143,200.

It is herewith recommended that the Commissioner approve the Judgment in the amount of $143,200 and that payment be made in the sum of $33,642.08 being the difference between the amount of the deposit and the amount of the verdict, together with interest as computed by the Bureau of Titles. (February 13, 1969)

Right of Way - Route 17

133 There is presented here the matter of the appeal by the owner from an award of Commissioners in the amount of $25,750.00. A Judgement was entered against the State in the condemnation of property on Route 17, Section 4, Parcels 172A and 172B, owned by Peter Modorello, et als.

At the trial before a Court and a jury, the owner was prepared to offer testimony in the amount of $39,900.00 and the State was prepared to testify to $24,000.00. Fair Market Value was registered in the amount of $24,000.00. The Complaint was filed on June 9, 1967 and a deposit made in the amount of $21,500.00. The matter was settled at trial for $26,000.00.

The State was represented by Fee Attorney John A. Hila.

It is recommended that the settlement, as approved by the Right of Way Division, in the amount of $26,000.00, be approved and that payment in the sum of $4,500.00, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles, since the award is fair and reasonable, not excessively higher than the registered Fair Market Value and experience with juries in Bergen County would indicate that an appeal would not achieve a more favorable result. (February 10, 1969)

Right of Way - Route 35

134 There is presented the matter of the Commissioners award in the condemnation of property on Route 35, Section 9, Parcel R117A, in the Township of Raritan, owned by Beatric Cowan; et al.

At the hearing before the Commissioners, an award of $60,000.00 was granted. Fair Market Value was registered in the amount of $32,000.00. The owners' witness testified to $74,000.00. The State did not testify because our witnesses were not available and the hearing was forced on. There was a deposit paid in the Court in the amount of $24,300.00 on June 19, 1967 and an additional deposit on May 2, 1968 in the amount of $7,700.00.

The State was represented by Fee Attorney John O'Mara.

Since the award exceeds the State's appraisal and registered Fair Market Value by $28,000.00, it is recommended that an appeal be taken and a protective appeal has been filed. **(February 10, 1969)**

Right of Way - Route 35

135 There is presented here the matter of the appeal by the defendant from an award of commissioners in the amount of $3,000.00. A Judgement was entered against the State in the condemnation of property owned by Coastal Properties; et al, in the amount of $6,000.00.

At the trial before a Court with a jury the owners offered testimony in the amount of $10,000.00. That State offered testimony in the amount of $2,500.00. The Complaint was filed on May 27, 1967. Fair Market Value was established in the amount of $2,500.00. A deposit was made in the amount of $2,400.00 on May 18, 1968.

The State was represented by Fee Attorney David Rothberg.

It is recommended that the verdict in the amount of $6,000.00 be accepted and that payment in the sum of $3,600.00, being the amount over and above the deposit paid in the Court, be paid together with lawful interest as computed by the Bureau of Titles. There are no grounds for an appeal. **(February 10, 1969)**

Right of Way - Route 35F

136 There is presented here the matter of the appeal by the State and the owners from an award of commissioners in the amount of $77,200 in the condemnation of property on Route 35F, Section 2, Parcels R19A and 19B owned by Shore Orchid Growers.

At the trial before the court and a jury the State offered testimony in the amount of $60,700. The owners offered testimony in the amount of between $349,000 and $396,000. The Complaint was filed in this matter on June 28, 1966 and a Declaration of Taking and deposit in the sum of $58,850 were made on the same date. The verdict was in the sum of $130,000.

It is recommended that the judgment in the amount of $130,000 with interest on the sum of $71,150 (difference between the deposit and verdict) from June 29, 1966 to the date of payment be paid. **(February 10, 1969)**

137 **Right of Way - Route 36**

There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $3,300.00 in the condemnation of property on Route 36, Section 3, Parcel 92 owned by Richard A. Rinderer.

At the trial before the court sitting with a jury, the State offered testimony in the amount of $350.00. The owners offered testimony in the amount of $4,000.00. The complaint was filed in this matter on December 14, 1967 and the deposit was made on December 14, 1967 in the amount of $350.00

It is recommended that the verdict in the amount of $800.00 be paid with interest at six percent on the sum of $450.00 from December 14, 1967, the date of the deposit, to the date of payment. **(February 10, 1969)**

138 **Right of Way - Route 70**

There is presented the matter of the Judgment against the State rendered on October 1, 1968 in this action in lieu of the Prerogative Writ of Mandamus, compelling the State to condemn this parcel, Makin Realty Co., Inc. vs. David J. Goldberg.

The Department of Transportation had entered into an agreement with the property owner to acquire this property. This agreement was later rescinded upon a receipt of an opinion from the Bureau of Titles that the subject property was in fact part of a paper street. The Honorable Edward V. Martino found that this subject parcel was not and had never been a public street and therefore ordered the State to condemn the parcel. He further opinioned that " I agree if a city street is established, either by formal acceptance or by implied dedication that the State Highway is not required to condemn". He found, however, that there had been no dedication of the street.

As this is not a landmarked case and will have no effect upon the commissioners power to assume jurisdiction of municipal streets under R.S. 27:7-3 et. sec. I recommend that the judgment be approved. **(February 10, 1969)**

139 **Right of Way - Route 78**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 78, Section 5A, Parcels 84A and 84B, in the Township of Springfield, owned by A. Russell Morrison; et al.

At the hearing before the Commissioners, an award of $30,500.00 was granted. Fair Market Value was reregistered in the amount of $13,500.00. The owner's witness testified to $72,000.00 and $65,000.00 respectively. The State's expert testified to $13,500.00 for the partial taking and damages to remaining lands of an improved parcel. There was a deposit paid in the Court in the amount of $30,000.00 on July 28, 1965.

The State was represented by Fee Attorney David Rothberg.

The Commissioners award is excessive and undoubtedly influenced by the State's deposit in the amount of $30,000.00, although the Fair Market Value was subsequently reregistered in the amount of $13,500.00, it is therefore recommended that an appeal be taken and a protective appeal has been filed. **(February 10, 1969)**

140 **Right of Way - Route 78**

There is again presented the matter of a Legal Division settlement in the condemnation of property on Route 78, Section 5B, Parcel 38 in the Township of Millburn, owned by Kellogg P. Sherwood.

After consultation with Mr. James V. Hyde, Jr., Director or Right of Way, the matter was settled with the Fair Market Value of $2,950. There was a deposit of $1,850 made into Court on July 22, 1966.

On March 1, 1968, a Consent Judgement was entered in the sum of $2,950 including interest or cost.

It is recommended that the additional deposit of $1,100 into court be approved (said $1,100 being the difference between the amount originally deposited in court and the amount of the Consent Judgement). **(February 10, 1969)**

141 **Right of Way - Route 80**

There is presented the matter of the appeal by the State from an award of Commissioners in the amount of $29,500.00. A judgement was entered against the State in the condemnation of property owned by Esther Soussa; et al.

At the trial before a Court and a jury the owners offered testimony in the amount of $60,900.00. The State offered testimony in the amount of $22,435.00. The Fair Market Value was registered in the amount of $22,435.00. The Complaint was filed on May 17, 1967 and a deposit was made in the amount of $22,200.00 on the same date. The verdict was made in the amount of $33,500.00.

The State was represented by Fee Attorney Gary Schwartz.

Because there are no grounds for appeal, it is recommended that the verdict in the amount of $33,500.00 be approved and that payment in the sum of $11,300.00, being the amount over and above the deposit in the Court, be paid together with lawful interest as computed by the Bureau of Titles. **(February 17, 1969)**

142 **Right of Way - Route 80**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 80, Section 3A, Parcel R38, in the Township of Parsippany-Troy Hills, owned by Donald J. Mc Kean; et al.

At the hearing before the Commissioners, an award of $65,800.00 was granted. Fair Market Value was registered in the amount of $53,500.00. The owners' witness testified to $77,000.00 and $76,884.00 respectively. The State's expert testified to $53,500.00 for the entire taking of an improved parcel. There was a deposit paid in the Court in the amount of $47,200.00 on February 27, 1968.

The State was represented by Fee Attorney Norman Schiff.

Since the award exceeds the State's appraisal and testimony by $12,300.00, it is recommended that an appeal be taken and a protective appeal has been filed. **(February 10, 1969)**

143 **Right of Way - Route 80**

There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $25,400 in the condemnation of property on Route 80, Section 4E, Parcels 261A and U261B owned by Eugene Haubenstock; et al.

At the trial before the court sitting with a jury the State offered testimony in the amount of $13,850. The fair market value was established in the sum of $13,850. The owners offered testimony in the amount of $38,000. The Complaint was filed on September 27, 1967 and a Declaration of Taking and deposit in the sum of $12,000 was made on October 11, 1967. The verdict was in the sum of $16,750 plus interest in the amount of $299.84 thereby constituting a verdict of $17,049.84.

It is recommended that the verdict in the sum of $5,049.84 be paid; which represents the jury verdict less the $12,000 deposit into court.

In addition one-half of the costs of the bus transportation be paid by each party. (February 10, 1969)

114 Right of Way - Route 295

There is presented here the matter of the appeal by the State from an award of commissioners in the sums of $42,547 (Parcels 1A and 1B) and $15,592 (Parcels 43A and 43B) in the condemnation of property on Route 295, Section 5, Parcels 1A and 1B and Route 295, Section 4, Parcels 43A and 43B all owned by Jack Balaban.

At the trial before the court sitting with a jury, the State offered testimony for all the parcels in the amount of $44,200. The owners offered testimony in the amount of $94,500. Complaints were filed on March 7, 1967 (Parcels 1A and 1B) and May 15, 1967 (Parcels 43A and 43B). Deposits were made on the same dates in the amounts of $32,000 and $8,500 respectively. With authorization from Mr. Hyde these matters were settled for a total of $58,000 including interest due or to become due up to 60 days from the date of entry of judgment.

It is recommended that the sum of $58,000 be paid as above outlined. (February 13, 1969)

Design Items

Route 87, Brigantine Bridge over Absecon Inlet

5 On February 6, 1969, as a result of the inspection in depth of the Brigantine Bridge, the Department reduced the 14-ton weight limit for the bridge to 7 tons. In order to insure the furnishing of essential services to the City of Brigantine, the Bureau of Bridge Design had prepared a plan and specifications to reinforce the stringers of the bridge so that the load-carrying capacity could be upgraded to its former 14 tons. Due to the necessity for expediting this project, it was deemed proper to seek a responsible contractor to perform the work on a negotiated basis.

Authorization was requested from the State Treasurer's Office to waive normal advertising procedures and to negotiate a contract having an estimated cost of approximately $100,000. This request was approved verbally by the Treasurer's Office on February 14, 1969.

Based on this approval, negotiations with the firm of Ole Hansen & Sons, Inc. were entered into and this resulted in a proposal dated February 19, 1969 from the Contractor to accomplish the work of the contract for a lump sum of $88,500. It is considered that this price is equitable and it is, therefore, recommended that authorization be granted to enter into a binding contract with Ole Hansen & Sons, Inc., 22 North Franklin Avenue, Pleasantville, N. J. 08232 for the completion of the necessary strengthening and that the sum of $88,500 be provided to pay Ole Hansen & Sons, Inc. for the work of the contract upon the satisfactory completion thereof. **(February 21, 1969)**

Supplemental Agreement - Route 38 Freeway John G. Reutter Associates

6 **Approval and execution is recommended of the attached SUPPLEMENTAL AGREEMENT dated February 5, 1969, between John G. Reutter Associates, Consultant, and the State of New Jersey covering understandings in connection with the performance of Engineering Services for Route 38 Freeway, Section 4, in Wall Township and the Borough of Belmar, Monmouth County. In as much as there has been an increase in the estimate of construction cost for the above project, the amount of money set up in the original Agreement covering Part Second, Item No. 1., is being increased from $160,000 to $217,500.**

It is therefor recommended that the additional amount of $57,500 be set up to cover the extra cost. (February 21, 1969)

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $250. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this easement subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $250.00. (February 21, 1969)

This parcel has been appraised and the reviewer's registered Fair Market Value Determination is $250.00. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this easement subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $250.00. 35 **Right of Way - Route 440 Freeway**

There is presented again the matter of condemnation of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35, Parcel U188C, Boise-Cascade (A Delaware Corporation). Condemnation proceedings were authorized by the Commissioner on December 14, 1967, and the registered Fair Market Value determination in the sum of $2,350 was deposited in the Superior Court on December 29, 1967.

Subsequently, the appraisal was up dated to the Complaint date and the Fair Market Value was re-registered in the sum of $5,850., which was offered to and refused by the owners who demanded $500,000. for the seven parcels which the Department of Transportation proposes to acquire. The owners secured a Court Order requiring the State to deposit the additional sum of $3,500., representing the difference between the Fair Market Value and the deposit previously offered them.

Authority is, therefore, requested to amend the Declaration of Taking and deposit an additional $3,500. together with the $2,350. already on deposit, making a total of $5,850. on deposit in the Superior Court. (February 21, 1969)

36 **Right of Way - Route 440 Freeway**

There is presented again the matter of acquisition of property on Route 440-Freeway, Section 1, Project F-209-(2), From New Jersey Turnpike to Route 35. Subsequently, updated appraisals resulted in the Fair Market Value being re-registered in the sum of $241,300 which was offered to and refused by the owner's agent who would not state a demand.

Inasmuch as the sum of $95,900 was previously deposited in the Superior Court, authority is now requested to deposit the additional sum of $145,400 making the total on deposit the sum of $241,300. (February 21, 1969)

37 **Right of Way - Route 440 Freeway**

Inasmuch as the sum of $115,700 was previously deposited in the Superior Court, authority is now requested to deposit the additional sum of $74,250 making the total on deposit the sum of $189,950. (February 21, 1969)

Legal Items

Right of Way - Route 17

109 There is presented the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 17, Section 4, Parcel E215 owned by Giuseppe Maggio.

At the hearing before the commissioners the State offered testimony in the amount of $200. Fair Market Value was established in the amount of $200. The owners, represented by Louis Schiffman, Esq., offered testimony in the amount of $1,600. The commissioners then awarded $500.

It is recommended that the commission award in the amount of $500 be accepted and approved. (February 21, 1969)

Right of Way - Route 78

110 There is presented the matter of the settlement in the condemnation of property on Route 78, Section 5G, Parcel 1046, owned by Betty Macklis.

This case was settled on the day of trial by Deputy Attorney General Riskin, after conferring with Angelo A. Alfano and Mr. Okin, attorney for the owners, in the amount of $13,700, including interest. Complaint date was March 7, 1968. Fair Market Value was established in the amount of $12,000 based upon Mid-American Appraisal Co. Deposit into court was made on March 8, 1968 in the amount of $12,000.

It is, therefore, recommended that this agreement in the amount of $13,700 be approved. (February 21, 1969)

Right of Way - Route 90 Freeway

111 There is presented here the matter of a jury trial which came to be heard before the Honorable William A. Pascoe, sitting with a jury on November 12, 13, 14 and 15, 1968 concerning the property on Route 90 Fwy., Section 2, Parcel R1 owned by Leo Meisler; et al.

The property owner's two witnesses testified to values of $109,000.00 and $125,000.00. The State offered testimony of $76,000.00 which equaled its fair market value. The jury rendered an award of $87,275.00. There was a deposit made into Court on February 13, 1968 in the amount of $76,000.00.

I am recommending that the commissioner approve the Judgment in the amount of $87,275.00 and that payment be made in the sum of $11,275.00, being the difference between the amount of the deposit and the amount of the jury verdict, with interest at six percent from February 13, 1968 to the date of payment as computed by the Bureau of Titles. **(February 21, 1969)**

112 **Right of Way - Route 440**

There is presented the matter of the Commissioners' Award in the condemnation of property on Route 440, Section 2, Parcels 6A and 6B, in the City of Bayonne, owned by Dicris, Inc.; et al.

At the hearing before the Commissioners, an award of $7,500.00 was granted. Fair Market Value was reregistered in the amount of $5,000.00. The owners' witness testified to $75,000.00. The State's expert was prepared to testify to $5,000.00 but at the hearing it developed that a sign on the property, evaluated at $2,500.00, belonged to the tenant and not to the owner. The State's expert, therefore, testified to $2,500.00 for the partial taking and damages to remaining lands of an improved parcel. There was a deposit paid in the Court in the amount of $2,500.00 on March 1, 1968 and an additional deposit in the amount of $2,500.00 on September 20, 1968.

The State was represented by Fee Attorney Harold Lasser.

Since the award exceeds the State's testimony by $5,000.00, it is recommended that an appeal be taken and a protective appeal has been filed. **(February 21, 1969)**

PUO-79-80-4S; NJ-I-80-4(16)53, Contract No. 1, authorized the New Jersey Bell Telephone Company to perform certain facility relocation work to accommodate the State's construction of Route 80, Section 4S. It is recommended that the award in the amount of $5,250.00 be approved, and that payment in the sum of $1,650.00, being the amount over and above the deposit paid in the Court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended as the award is fair and reasonable; not substantially in excess of the State's registered Fair Market Value and the payment of the award is recommended as in the public interest, particularly since recent experiences with juries in Monmouth County reveal little likelihood that the award will be reduced. **(February 28, 1969)**

At the hearing before the Commissioners an award of $10,500.00 was granted. Fair Market Value was registered in the amount of $8,000.00. The owners' witness testified to $12,050.00. At the hearing the owner testified to damages of $950.00 to cure a sewer problem caused by the taking and an additional $180.00 for top soil required in the relocation of the driveway. State's appraisal witness was unaware of the sewer problem and made no allowance for the top soil required for the old driveway.

It is recommended that the award in the amount of $10,500.00 be approved and that payment in the sum of $2,800.00, being the amount over and above the deposit paid in the Court, be paid togerher with lawful interest as computed by the Bureau of Titles.

In view of the testimony concerning the additional damages relating to the sewer and the driveway, experience with juries in Union County would indicate that the possiblility of a lesser verdict would be illusory.

137 **Right of Way - Route 78**

There is presented here the matter of the appeal by the State from an award of commissioners in the sum of $26,500.00 in the condemnation of property on Route 78, Section 5G, Parcel 886 owned by Etroy Sherman.

There was a deposit made into Court on December 4, 1967 of $21,900.00. The Complaint was filed on December 4, 1967.

This settlement was reduced to Judgment. I am recommending that the Commissioner approve the Judgment in the amount of $26,000. and that payment be made in the sum of $4,100. being the difference between the amount of the deposit and the amount of the Judgment without interest.**(February 27, 1969)**

SCHEDULE OF APPROVALS - MARCH 13, 1969

Administration Items

✓Project Agreement - I-80-3(4)43
Route 80, Section 3B

1 It is recommended that the attached modified project agreement in duplicate be approved and executed for Right of Way for N. J. Project I-80-3(4)43. (Route 80, Section 3B)

The total modified estimated cost is $2,800,000.00 of which $2,520,000.00 is Interstate funds. It provides a total increase of $200,000.00 of which $180,000.00 is Interstate funds. (March 3, 1969)

✓Claims - Settlement

2 The Department of Transportation is carrying a claim against Jay Gendell in the amount of $754.41 arising out of an accident occurring on May 2, 1962 at the intersection of Routes 1-9 and Broad Street, Ridgefield, New Jersey. As the result of this accident three State Highway employees also sustained personal injuries. Inasmuch as one of the personal injuries was not settled until recently, the property damage claim of the State was held in abeyance.

The property damage claim was arrived at by an estimate prepared by Brunswick Body Works in the amount of $719.25 plus departmental towing charges of $34.16, making a total claim of $754.41. Inasmuch as the truck was 6 years old at the time of the accident it was decided not to repair it, but to trade it in in its damaged condition. An appraisal was made by an outside appraiser who estimated that the truck could be repaired for the sum of $492.45 and when it was sold in its damaged condition the State received the sum of $217.87.

After all the personal injury claims were settled this office took the necessary steps to attempt to settle the property damage claim. The insurance company at first refused to honor our claim contending that the Statute of Limitations had run. We subsequently convinced the insurance company that the Statute of Limitations did not apply to the State of New Jersey. Subsequent negotiations resulted in the insurance company agreeing to settle our property damage claim for the sum of $375. In arriving at the settlement figure the appraisal made by an independent appraiser of $492.45 was used rather than the Brunswick Body estimate of $719.25.

Giving due consideration to all the circumstances involved in this case we feel the offer of settlement is fair and reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General William J. McCormack that it be approved. (March 3, 1969)

There is presented again the matter of acquisition of property of Route 38 (1953), Section 1, Project U-106-(12) Route U. S. 130 to Route 73, Parcel 183, Chester A. Dennis and wife.

On May 17, 1968 the Commissioner approved a Consent Judgment which had been agreed to by the State's Trial Attorney in the sum of $9,370. without interest or cost. The Consent Judgment had been entered prior to the taking of any testimony and which was an Appeal from the Condemnation Commissioners Award of $8,500. Fair Market Value had been registered in the sum of $6,550. The Right of Way Division did not consent to the entry of this judgment.

The Title Bureau has now advised that the Owner's Attorney has demanded interest to be computed on the Consent Judgment entered on July 29, 1968 to the date of payment. The demand for interest is based upon a provision in the Consent Judgment that the State must satisfy judgement within 90 days from the date of the entry of the judgment on April 29, 1968 after which interest shall run. The delay in making payment, however, is due to the failure of the owner's attorney to return to the State the necessary papers to effect closing. However, notwithstanding the fact that the delay is not the State's, it is our Title Bureau's opinion that interest must be paid as hereinbefore mentioned.

Authority is therefore requested to pay interest at the rate of 6% from July 29, 1968, to the date of payment as provided for in the attached Consent Judgment. (March 6, 1969)

Keim Boulevard

Burlington County Bridge Commission

Many years ago the State Highway Department and the Burlington County Bridge Commission entered into an agreement to improve the approaches to the Burlington-Bristol Bridge. Although the work phases have long been accomplished, there remains in dispute the matter of State participation in the engineering costs of the Bridge Commission.

Much discussion and many documents have failed to provide a solution. The only obstacle that prevents a conclusion to this agreement is the amount of $13,000.00 in engineering fees paid by the Bridge Commission to their consultants. It is the State's contention this amount is excessive.

In order to prevent costly litigation and to finalize this long standing matter, it is considered that the interest of the people of New Jersey will best be served by accepting final settlement in the amount of $6,500.00. This arrangement is acceptable to the Burlington County Bridge Commission.

An affirmative administrative decision has been recommended by the Department's attorney.

Approval is requested. **(March 18, 1969)**

141 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $90,000.00. A Consent Judgement was entered against the State in the condemnation of property owned by William A. Carey, Co.; et-al, in the amount of $85,000.00.

At the trial before the Court and a jury the owners were prepared to offer testimony in the amount of $107,000.00. The Fair Market Value was established in the amount of $75,600.00. The State was prepared to testify to a value of $75,600.00 although the State's file contained an additional appraisal in the amount of $87,500.00. The Complaint was filed on June 28, 1966. There was a deposit paid into Court in the amount of $60,000.00 on June 28, 1966, and an additional deposit on January 15, 1969 in the amount of $15,600.00 for a total deposit of $75,600.00.

The State was represented by Fee Attorney John Hila.

Negotiations prior to trial indicated that the defendants were willing to accept $85,000.00 in full settlement, which was reduced to a consent judgement after consultation with the Right of Way Division.

It is recommended that the consent judgement in the amount of $85,000.00 be accepted and that payment in the sum of $9,400.00, being the amount over and above the deposit paid into Court, be paid together with lawful interest as computed by the Bureau of Titles.

The Settlement is in the public interest for the following reasons:

It reduces the award by $5,000.00 and, based upon the experience with juries in Passaic County, it is doubtful that the award would have been reduced; this case being more than two years old the expense of litigation and the accrued interest must be considered as a factor; the settlement is not substantially in excess of the Fair Market Value and, lastly, since the taking involved a scavenger business, difficulty in relocating this type of operation undoubtedly might influence the jury to the State's detriment. **(March 18, 1969)**

In view of the fact that a closing was never effected for this slope easement, authority is, therefore, requested to rescind the action of September 28, 1967, as well as the agreement covering the conveyance of this parcel, and to eliminate the parcel from the general property parcel map. 1968-A-588 to Franklin Hannoch, Sr., and 1968-A-589 to Sanford Krasner. The orders were for Parcel 15F, Route 78, Section 5H. The parcels are being revised because of a recent sale and a new order will be required for the revised parcels. Authority is requested to rescind that portion of previous action pertaining to Parcels 9A, 9B & 19C.

1968-A-525 to Joseph A. Martin. The order contained a number of parcels on Route 295, Section 7, including Parcels 118 and 121. Authority is requested to rescind that portion of previous action pertaining to Parcels 118 and 121.

112 There is presented again the matter of the Judgment entered against the State in the condemnation of property on Route 17, Section 4, Parcel 92A, owned by Alphonse Buffalino; et al. This had been presented on February 6, 1969, but at that time an error was made regarding the computation of interest, and again on March 4, 1969 with the incorrect amount of the deposit into court. The corrected figures follow:

At the commission hearing, the commissioners' award was in the amount of $200,000. The State appealed.

At the jury trial, the owners offered testimony in the sum of $206,000 and the State offered testimony in the sum of $122,400. There was a deposit made into court on June 21, 1967 in the amount of $112,500, which sum was withdrawn.

The Judgment is in the amount of $143,200.

It is herewith recommended that the Commissioner approve the Judgment in the amount of $143,200 and that payment be made in the sum of $33,596.73 being the difference between the amount of the deposit and the amount of the verdict, together with interest as computed by the Bureau of Titles. Claims - Settlement

The New Jersey Department of Transportation has a claim against Jersey Transport, Inc. covering medical expenditures and compensation payments made on behalf of Vito Consalvo who was injured as the result of a third jarty accident occurring on August 9, 1965. The injured employee was treated by Dr. C. G. Ferguson who rendered a bill in the amount of $62.00. Temporary compensation was charged against this accident for nine days lost time at the rate of $45 per week amounting to $57.86. The employee retained the services of an attorney who filed a formal petition with the Division of Workmen's Compensation which entered an award against the Department and in favor of the employee for $2200 representing 10% of total, requiring the payment of compensation for 55 weeks at $40 per week.

This employee retained the services of an attorney to represent him in his claim against the third party. Recently the case was reached for trial and the best offer the insurance carrier could make was $2500. I am enclosing, herewith, a letter received from the attorney representing this employee dated January 16, 1968, together with his letter dated February 3, both of which are self-explanatory. The Claims Bureau advised the attorney that his offer of settlement in the amount of $700 was not acceptable and that they could not make a favorable recommendation that it be accepted.

On Monday March 17 the Claims Bureau received a call from Judge Theodore Rosenberg who discussed this case with Raymond A. Callahan at quite some length. The Judge pointed out that in his opinion there was good liability but very poor medical to support the plaintiff's demand. The Judge felt that if the case was tried he did not feel the verdict would exceed the offer of settlement and could very well come in for an amount less than the proposed offer. Mr. Callahan advised the Judge that he felt that the employee and his attorney should make a more substantial offer than the $700 proposal tendered. We had indicated to the attorney that we would accept in the neighborhood of $1100. The Judge using this figure and the offer felt that perhaps the sum of $900 would be more realistic. In the event the State received a full settlement of its compensation lien less the usual statutory deductions for counsel fees and expenses of suit, it would net the sum of $1,346.57. Mr. Callahan advised the Judge that if we could get a settlement in the neighborhood of $1000 we would make a favorable recommendation to the Department of Transportation that it be accepted. The Judge called him back to advise that he was successful in getting the offer increased to $1,000 net to the State. Mr. Callahan advised Judge Rosenberg that he would make a recommendation to the Department of Transportation that the offer of settlement in the amount of $1,000 receive favorable consideration and be approved in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack. **(March 31, 1969)**

Hendrickson Brothers, Inc., Valley Stream, New York, substantially completed all road work under their contract for Route 38, Sections 1F & 2C, Federal Project No. U-106(14), on October 9, 1967.

All corrective work was satisfactorily completed prior to October 4, 1968.
